Corn Test Plot

### Starter Fertilizer Comparison

	<b>Redline® 7-21-7 5 gpa</b>	<b>AgroLiquid® Pro Germinator 5 gpa</b>	<b>Nutra Flow® 6-24-6 5 gpa</b>	<b>Natures® 6-24-6 5 gpa</b>	<b>Feast® 9-18-9 5 gpa</b>	<b>AgroVantage® System</b> Feast 9-18-9 4 gpa Side-Kick 1 gpa Feast Ca 2 pints Feast Zn 4 pints
Yield, BPA	168.38	182.78	183.14	184.00	188.11	198.09

There is a difference between starter fertilizers on the market. Feast Starter fertilizer 9-18-9 out yielded the competition and shows why this high quality fertilizer should be used on your fields. The AgroVantage System added Side-Kick 0-0-25-17S, Feast Calcium and Feast Zinc from a soil test recommendation. By adding the micronutrients that are called for on the soil test, the plant was not lacking, and thus was able to increase yield and reach its full potential!
