

Directions: Add one and one-fourth to two and one-half gallons of water to a clean two and one-half to five-gallon pail. Obtain a paddle and attach to a drill. Mix the water with the paddle, and carefully add Amplify-L. For best results, add Amplify-L slowly to minimize clumping, and continue to mix until all is fully dissolved. Apply the mixture to the seed with on-farm or commercial seed treating equipment. One pound of Amplify-L in one and one-fourth to two and one-half gallons of water will treat 700 to 1,500 pounds of seed.

Amplify-L can be dissolved in water for application by itself or blended with pesticides for simultaneous application. Seed treated with Amplify-L may be stored for later use except where it has been applied to previously pesticide treated seed. In this case, the seed should be used as soon as possible. Cotton seed treated with Disyston® should not be treated with Amplify-L. Dissolve Amplify-L in water prior to the addition of wettable powders or oil-base flowable pesticide formulations.

Note: DO NOT prepare more Amplify-L solution than will be used within 24 hours, use as a pour-on treatment in the planter box or seed bag, or apply in combination with in-furrow starter fertilizer.

Important: Consult manufacturer for pertinent product information at <http://www.conklin.com/agrovantage/docs>

CONKLIN® AgroVantage[®]
SYSTEM

Amplify-L

SEED - APPLIED FERTILIZER

7-38-0

Mix with water and apply directly to seed as a coating.
Amplify[®]-L is a blend of nutrients which aid early seedling development and growth.

This fertilizer is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by agricultural crops.

Net Contents: 1 lb (454 g)

Guaranteed Analysis: 7-38-0

Total Nitrogen (N) 7.0%

7% Other Water Soluble Nitrogen

Available Phosphate (P₂O₅) 38.0%

Nutrients derived from: disodium phosphate, adenosine monophosphate and monosodium phosphate.

WARNING

Causes eye and skin irritation.

Precautions: Wear gloves, safety glasses or goggles, and long-sleeved clothing when handling. Wash hands thoroughly after handling.

Response/First Aid: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. If on skin: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice or attention. Take off contaminated clothing and wash it before reuse.

Causes damage to Bladder, Kidneys, Lungs, and Skin through prolonged or repeated exposure.
