

BullsEye™

DRIFT MANAGEMENT/DEPOSITION AID

- Compatible with all glyphosate formulations
- Reduces drift outside of target area
- Improves pesticide efficiency and effectiveness
- Highly concentrated formulation for more economy
- Easy to dispense and mix – safe to handle and use

HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS

KEEP OUT OF THE REACH OF CHILDREN WARNING

MAY BE HARMFUL IF SWALLOWED. CAUSES SKIN IRRITATION. CAUSES EYE IRRITATION. DO NOT FREEZE. PRODUCT WILL CAUSE A SLIP HAZARD. READ LABEL BEFORE USE. KEEP CONTAINER TIGHTLY CLOSED. WASH THOROUGHLY AFTER HANDLING. DO NOT EAT, DRINK OR SMOKE WHEN USING THIS PRODUCT. WEAR PROTECTIVE GLOVES, CLOTHING, EYE AND FACE PROTECTION. TAKE OFF CONTAMINATED CLOTHING AND WASH IT BEFORE REUSE.

FIRST AID

EYE CONTACT - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present, after the first 5 minutes, then continue cautiously rinsing eye. Have the product container with you when calling a poison control center or doctor, or going for treatment. If eye irritation persists: Get medical advice or attention.

SKIN CONTACT - IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water. Call a poison center or doctor to specify the appropriate source of emergency medical advice. If skin irritation occurs: Get medical advice or attention.

INGESTION - IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person. Immediately call a poison center or doctor to specify the appropriate source of emergency medical advice. **DO NOT INDUCE VOMITING**

INHALATION - IF INHALED: If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

To Report a Serious Product Adverse Event, call 1-866-562-4619.

DRIFT MANAGEMENT/DEPOSITION AID

Use Bull's-Eye™ spray adjuvant to manage chemical drift and spray deposition. Bull's-Eye increases the surface tension in agricultural solutions which produces larger uniform droplets in a general size range of 150 to 200 microns. Bull's-Eye increases the deposition of spray solution onto target plants.

Principle Functioning Agent:

Polyvinyl Polymer (Polyacrylamide) 30%

Constituents Ineffective as Spray Adjuvants:

Inert Ingredients 70%

100%

Directions for use: It is a violation of Federal law to use Bull's-Eye with a pesticide in a manner inconsistent with pesticide labeling. DO NOT apply Bull's-Eye with pesticides in such a manner where it can directly expose workers or others through drift. The area being treated must be evacuated by unprotected persons.

Mixing Instructions

Note: Begin mixing by using the lowest rate below, and increase, as necessary to achieve desired spray pattern.

Ground applied: low pressure (below 30 psi): 1 to 4 ounces per 100 gallons of solution (flat fan, flood) or 3 to 5 ounces per 100 gallons of solution (off-center). medium pressure (30 to 50 psi): 3 to 4 ounces per 100 gallons of solution (flat fan, flood) or 4 to 6 ounces per 100 gallons of solution (off-center) or 5 to 8 ounces per 100 gallons of solution (spray guns). high pressure (over 50 psi): 8 to 32 ounces per 100 gallons of solution (spray guns).

Aerial applied: (below 45 psi): 2 to 6 ounces per 100 gallons of solution (straight back) or 4 to 8 ounces per 100 gallons of solution (45 degree angle).

Home and garden sprayers: Use 1 tablespoon of Bull's-Eye per 5 gallons of spray solution. Fill tank with water and pesticide mixture and begin to agitate. Always invert and shake container of Bull's-Eye well before use. Slowly add to a rapidly agitating tank mix, pouring a pencil thin stream into the area of highest turbulence. Continue to aggressively agitate the tank mix for at least two minutes before spraying.

Note: The degree of drift hazard varies with the type of pesticide, application conditions, and vegetation near the sprayed area. Consult your local agricultural advisor. Remember, pesticide drift is no accident.

Environmental Hazards: DO NOT contaminate lakes, streams or ponds with this product. Keep spillage out of sewer and open bodies of water. Dike and contain spills with inert materials.

Storage and Disposal: Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F. Do Not Freeze. Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org.

KEEP FROM FREEZING
