

FEEDSTORE®

GENERATION II (DRY) LIVE SILAGE INOCULANT

Feedstore® Generation II is a concentrated source of elite strains of live lactic acid-producing bacteria, "propionibacterium," a bacteria that produces propionic acid, and enzymes designed to help assure sufficient sugars to complete the fermentation process. Use for inoculation of silage, haylage, baleage, and high-moisture grain.

Guaranteed Analysis:

Not less than 90 billion colony-forming units of *Pediococcus pentosaceus* and *Lactobacillus plantarum* lactic acid-producing bacteria per pound. Not less than 9 billion colony-forming units of *Propionibacterium freudenreichii* propionic acid-producing bacteria per pound. Beta-glucanase (*Trichoderma reesei*) 0.007 pounds reducing sugar liberated per minute per pound. Alpha-amylase (*Aspergillus oryzae*) 0.005 pounds reducing sugar liberated per minute per pound. Xylanase (*Trichoderma reesei*) 0.0008 pounds reducing sugar liberated per minute per pound. Galactomannanase (*Trichoderma reesei*) 0.0009 pounds reducing sugar liberated per minute per pound.

Ingredients

Calcium carbonate, dehydrated *Pediococcus pentosaceus* fermentation product, dehydrated *Lactobacillus plantarum* fermentation product, dehydrated *Propionibacterium freudenreichii* fermentation product, dehydrated *Trichoderma reesei* fermentation solubles, dehydrated *Aspergillus oryzae* fermentation solubles, sodium aluminosilicate, and mineral oil.

Suggested Rates of Application

Apply **one pound** of Feedstore Generation II dry **per ton of forage** for all ensiled forage crops, including high-moisture grain. Uniform distribution of the inoculant in the forage is essential.

Storage/Handling

Store product in a cool, dry area below 60 F. **Do not freeze.** Use within one year of purchase. One 50-pound bag treats 50 tons.

PRECAUTIONARY STATEMENT:

This product contains enzymes. May cause mild skin irritation. May cause mild eye irritation. May cause allergic reactions, including asthmatic bronchitis, in susceptible individuals if inhaled. Avoid breathing dust. In case of inadequate ventilation wear a mask. Wash hands thoroughly after handling. If breathing is difficult remove victim to fresh air. If experiencing respiratory difficulty, eye or skin irritation, get medical attention.
