

# RainFast™

## ADVANCED TECHNOLOGY SURFACTANT

Use Rain-Fast non-ionic wetter/spreader/penetrant/surfactant to improve your agricultural chemical spray applications.

### Principle Functioning Agents:

A 100 percent active proprietary blend of polyether modified trisiloxane co-polymer, silicone, non-ionic surfactants with anti-foam characteristics and a humectant.

- Produces rainfastness more quickly than straight organic surfactants
- Provides superior leaf wetting, spreading and penetration of spray solutions
- Maximizes the effectiveness of agricultural chemicals and foliar fertilizers
- Potential to produce stomatal flooding

#### Personal Protective Equipment – Applicators and other handlers must wear:

- Long-sleeved shirt and long pants
- Shoes plus socks
- Waterproof gloves

Follow the manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

#### User Safety Recommendations

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing if this product gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change to clean clothing.

#### Principal Functioning Agents:

2,2'-oxydiethanol	47%
organosilicone compounds and other NIS	32%
Polyether modified Trisiloxane	21%

**Grand Total . . . . . 100%**

**Directions for use:** It is a violation of federal law to use Rain-Fast with a pesticide in a manner inconsistent with pesticide labeling. DO NOT apply Rain-Fast with pesticides in such a manner as to directly or through drift expose workers or other persons.

The area being treated with the Rain-Fast/pesticide solution must be vacated by unprotected persons.

# DANGER

**Harmful if swallowed or inhaled. Causes serious eye irritation. Prolonged contact causes skin irritation.**

**Net Weight:**  
**21.9 Pounds (9.9 kg)**  
**2.5 Gallons (9.46 L)**

## ADVANCED TECHNOLOGY SURFACTANT

### AGRICULTURAL USE REQUIREMENTS

Use this product with pesticides only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements in this labeling about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product with pesticides that are covered by the Worker Protection Standard.

DO NOT enter or allow worker entry into treated areas during the restricted interval (REI) minimum of four hours. See pesticide label for specific REI time.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water is:

- Coveralls
- Waterproof gloves
- Shoes plus socks

### Suggested General Rates of Application:

General Wetter/Spreader .....	6 to 12 fld. ozs. Rain-Fast/100 gallons
Foliar Feeding .....	1 to 2 fld. ozs. Rain-Fast/100 gallons
Aerial .....	1 to 12 fld. ozs. Rain-Fast/100 gallons
Ground .....	2 to 12 fld. ozs. Rain-Fast/100 gallons

Some agricultural chemicals may require higher or lower surfactant rates of maximum effectiveness. Read and follow agricultural chemical label directions carefully before using this product.

**Mixing instructions:** Shake well before using. Add the proper application amount of Rain-Fast to the tank when approximately one-half full of water or liquid fertilizer, and mix thoroughly prior to the addition of the pesticide. When mixing wettable powders, the suspension of the pesticide should be prepared prior to the addition of Rain-Fast. Consult the label of each pesticide for further specific mixing and application instructions.

\*Kombind,® Conklin's compatibility agent, is recommended with liquid fertilizer/pesticide combinations.

**Environmental Hazards:** DO NOT discharge effluent containing this product into lakes, streams, ponds or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit, and the permitting authority has been notified in writing prior to discharge. Keep spillage out of sewer systems and open bodies of water. Dike and contain spills with inert materials. For guidance, contact your State Water Board or Regional Office of the EPA.

### STORAGE AND DISPOSAL

DO NOT contaminate water, food or feed by storage and disposal

<b>Storage</b>	Store in original container only, separate from fertilizers, pesticides, feeds and food. AVOID creasing or impacting side walls. <b>DO NOT FREEZE.</b>
<b>Disposal</b>	Waste resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility. If needed, contact your State Pesticide or Environmental Control Agency or nearest EPA Regional Office.
<b>Container Disposal</b>	DO NOT reuse or refill empty containers. Triple rinse (or equivalent) empty container, then offer for recycling or reconditioning; or, puncture and dispose of in a sanitary land fill, or by incineration; or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**Precautions:** Avoid breathing mist, vapors and spray. Use only outdoors or in a well ventilated area. Do not eat, drink or smoke when using this product. Wear gloves, safety glasses or goggles, and long-sleeved clothing when handling. Wash hands thoroughly after handling.

**Response/First Aid:** If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. If swallowed: Immediately call a physician or Poison Control Center. Rinse Mouth. If on skin: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice or attention. Immediately take off all contaminated clothing and wash it before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a physician or Poison Control Center.

Causes damage to Central Nervous System, Eyes, and Respiratory System through prolonged or repeated exposure.

For US Health Hazard Information, call 1-888-786-0974.
