AMERICAN-MADE, FARMER -OWNED

Conklin Company Owner, Chief Executive Officer, and President Charles W. Herbster started his Conklin career more than 45 years ago when he became a Conklin Independent Distributor on Dec. 1, 1976. Just six months later, Charles was appointed a Conklin Director on July 1, 1977, breaking the record for his quick management advancement. Bob and Jack Conklin, the sons of original Conklin owner Harry Conklin and Co-Owners and Co-Founders of the Conklin Company at the time, requested Charles join the corporate staff and accept the position of National Sales Manager.

During the late 70s, Charles traveled the country training, supporting, and serving Distributors coast to coast. In 1980, he resumed his role in the field as a Conklin Director. Charles married his wife, Judy, in 1982, and they built their Conklin business together as Directors for the next 10 years. In 1992, Charles became the majority shareholder of the Conklin Company, and in 1994, he became the sole owner. Today, he is the longest-serving President in the Conklin Company history.

Celebrating over five decades as a manufacturing and distribution company, the core of the Conklin opportunity lies in its quality products — more than 130 across six major product divisions: Agronomics, Animal, Health & Home, Lawn & Garden, Roofing Systems, and Vehicle products. Conklin's products are marketed through a vast nationwide network of Independent Distributors. The diversity in its product lines offers unlimited opportunities for sales to a variety of clients. Customers rely on Conklin's products to protect their most valued assets—their health, home, pets, vehicles, equipment, and buildings.

However, Conklin is only part of Charles' passion; he was born with an entrepreneurial spirit. As a young boy, he was raised on the land homesteaded in 1847 by his great-great-grandfather. Charles got his start in the cattle business at the age of 11 when his grandmother purchased 65 registered Angus cows. Her investment in her grandson was the spark behind Herbster Angus Farms. Today, Charles owns and manages more than 4,000 acres of prime farmland in southeast Nebraska and northeast Colorado, raising corn, soybeans, wheat, and dairy-quality alfalfa hay, along with registered Angus cattle. In addition, as owner of North American Breeders Inc. in Berryville, Virginia, Charles provides superior registered Angus genetics worldwide, breeder to breeder.

As the Chairman of the Agriculture and Rural Advisory Committee originally initiated in 2016 for the 45th U.S. President Donald J. Trump, Charles and the Committee continue to monitor national agricultural priorities to help keep American farms in business for generations to come.

With his decades of experience leading Conklin, Charles understands the importance of excellence, efficiency, and results. He works diligently to continue to provide these American-made products far into the future for the tens of thousands of people all across America who have relied on Conklin's high-quality products.

"It's no accident that Conklin's presence across the nation continues to expand and influence generations of hard-working people. The core of our mission is to provide products that work as hard as you do — and because Conklin products have stood the test of time, the Conklin name is one that people trust. That's something we really value."

— Charles W. Herbster

Maximizing profits and increasing yields with the System of Champions

Many of Conklin's best customers are America's hard-working farmers, who recognize that the Conklin AgroVantage System has been the most progressive and proven crop management system available for over 30 years. In an industry dominated by corporate giants, Conklin is one of the few independent, farmer-owned agriculture companies in the world. The Conklin AgroVantage crop management system is a tested and proven system that maximizes the potential of every acre for lower input costs, higher yields, and greater profits.

AGROVANTAGE[®] P R O D U C T S

In today's competitive marketplace, farmers recognize the commitment needed to take their crops to the next level:

- Proper soil testing helps identify limiting factors in soil and provides recommendations to positively impact yields.
- Quality, proven products maximize the potential of soil and seed genetics. With the AgroVantage System, never spend input dollars on nutrients crops won't use.
- Ongoing technical and practical training allows growers to discover a completely different way of feeding crops, putting new insights to work with remarkable results with a company manufacturing proven products for more than 50 years.

AgroVantage serves these agriculture businesses and professionals:

- Farmers/Crop Producers
- Certified Crop Advisors
- Crop Consultants
- Fertilizer and Chemical Dealers
- Custom Applicators
- Seed Dealers

SOIL & TISSUE TESTING

Take the guesswork out of diagnosing the nutrient requirements of your soil

A Complete, Web-Based, Interactive System

Unlike many other tests, which offer just the basics, the more than 30-year partnership Conklin has forged with Midwest Laboratories[®] provides a complete soil and plant analysis in a professional, easy-to-understand format and sends this information electronically to Conklin. We utilize this information to create AgroVantage recommendation reports from our in-house program. This allows us to offer alternative starter recommendations, add new products as they are introduced, and revise fertilizer placement recommendations to achieve optimal results and provide a real-time, personalized diagnosis of your field's nutrient status.

AgroVantage Soil Testing

Soil testing improves your return on investment (ROI)
Complete soil testing is essential to maximize the effectiveness of your crop production operation. Partnering with Midwest Laboratories, the AgroVantage System provides one of the most technologically advanced soil analysis systems available. Results include nutrient recommendations, application rates, and placement for nitrogen, phosphorous, and potassium, as well as micro and secondary nutrients.

AgroVantage Tissue Testing

Tissue testing unlocks secrets to higher yields
The nutrient status of the growing plant is one of the most overlooked factors affecting crop yields. Measuring the flow of nutrients to the plant tissues during the growing season will detect unseen deficiencies before visual symptoms appear. Plant tissue analysis provides a tool to detect nutrient problems, diagnose deficiencies, and determine if your soil fertility program is providing the necessary uptake to reach your yield goals.

Optimizing nutrient conditions for seedling growth and emergence for more than 40 years

The original adenosine monophosphate (AMP) seed treatment used by crop producers across the nation

Recommended for corn, alfalfa, small grains, cotton, and small-seeded grasses. These proprietary products provide AMP and fertilizer to optimize soil/nutrient conditions, seed germination, emergence, and root growth. While the benefits are the same, we offer both dry and liquid-applied formulas to meet your needs. Healthy, early growth results in more plants and uniform stands that lead to increased yields.

- Optimizes conditions to overcome cold, wet conditions at planting
- Enhances conditions for seedling vigor and stand establishment
- Improves nutrient conditions for root growth

Amplify-L

Liquid dispersible seed emergence aid

This liquid-applied, seed emergence aid optimizes soil and nutrient conditions for early seedling vigor and stand establishment. Dissolve 1 pound of powder in 1.25 to 2.5 gallons of water to be applied to 700 pounds of small-seeded crops (alfalfa, grasses, etc.) or 1,500 pounds of large-seeded crops (corn, cotton, etc.).

#039651 1-lb container

Amplify-D

Dry seed emergence aid with micronutrients

This planter-box-applied product is an easily identifiable blue powder with talc to improve seed flow and lubrication, reducing the effects of high humidity. Use 2.5 pounds to treat 500 pounds of small-seeded crops (alfalfa, grasses, etc.) or 1,000 pounds of large-seeded crops (corn, cotton, etc.).

#057372 2.5-lb container

#079266 Pre-measured dispensing cap for 2.5-lb. container

The Amplify® products — whether you use the dry or the liquid version — are hands down the easiest products to use to maximize ROI. I've been using and promoting them for years and customers always notice a visual difference between where it's used and where it's not.

- TYLER H., IOWA

Magnify LST

Liquid soybean inoculant with Rhizobium Extension Solution

This liquid soybean inoculant lasts up to 28 days on the seed before planting; best results are achieved with the shortest time from treatment to planting. This is the product of choice for on-seed and in-furrow applications. A 50.7-ounce inoculant bladder and 11.8-ounce extension solution treats 2,500 pounds (50 units) of seed.

#057810 4 - 50.7-oz inoculant bladders and 4 - 11.8-oz extension solution bladders (treats 200 units of seed)

Magnify® the performance of your soybean crop

Scientifically proven to increase soybean yields

Research proves that at least one million rhizobia bacteria added by inoculation are needed for consistent soybean yield response, which is especially important on ground where soybeans have not been grown for multiple years. Available in liquid form, Magnify LST with Rhizobium Extension Solution provides one million live Bradyrhizobium japonicum cells per seed and an extension solution, ensuring inoculant survivability and providing additional time should weather events or breakdowns prevent planting for several days. Magnify LST increases nitrogen fixation for efficient plant development and improves pod fill to increase crop yield.

- Consistently increases yields
- Up to 28 days survivability on seed
- Easy-to-use liquid formula

Protecting nitrogen investments for over 30 years, Guardian® saves money on nitrogen inputs and increases yields

Nitrogen is one of your most expensive inputs. On top of that, once applied, much of it can be lost to natural processes such as denitrification, leaching, and runoff. Guardian slow-release nitrogen fertilizer additive "holds" plant-available nitrogen in the root zone longer, allowing growers to cut application rates up to 20%. When you combine decreased nitrogen loss and application rate with higher yield results, Guardian is one smart choice.

Increase yield while decreasing nitrogen rate up to 20%

Guardian's non-toxic formula contains dicyandiamide (DCD), which has been shown to have minimal effect on total soil microbial biomass. In addition, Guardian has gained national recognition for its use with ammonium-containing fertilizers. Available in liquid formulas.

- Keeps plant-available nitrogen in place
- Minimizes leaching and denitrification losses
- Produces higher yields

Guardian-DL 15-0-0

Liquid nitrogen stabilizer

Guardian-DL 15-0-0 is available for the 2022 growing season. It is an efficient and effective means to boost your yield potential when your nutrient management practices call for a liquid. Use 2 to 4 quarts per acre for band applications; 6 to 8 quarts per acre for broadcast applications. Use with fluid fertilizers such as suspensions, urea solutions, urea ammonium nitrate (UAN), liquid manures and ammonium thiosulfate (ATS) blends.

#041644 5 gallons (in two 2.5-gallon containers)

#041648 250-gallon mini-bulk

I added Guardian to the 32% urea strips at the rates recommended of 100%, 90%, and 85%. The strips with Guardian yielded the same as the 100% strip without Guardian and out-yielded the other by 8-10 bushels.

For best results, always read and follow label instructions. Results may vary.

Break the yield barrier with Feast fertilizers

Feast Yield Master Starter Fertilizers

Introduced nearly 40 year's ago, Conklin's fertilizers start with the highest quality raw materials to produce a superior finished product. Unlike most fertilizers in the industry, Feast is an absolutely clear, true liquid solution with no impurities. It has a low-salt index providing 100% orthophosphate and potash provided with potassium hydroxide. Only low-biuret* urea sources are used in these specifically formulated fertilizers.

- Over 40 years of consistent research and field-proven test results
- Non-corrosive to equipment
- Effective at lower application rates
- Proven seed safety
- Food-grade and virgin raw materials

*Biuret is the most common impurity found in urea.

Feast Yield Master Foliar Fertilizers

Bring in bumper crops with the efficiency of foliar feeding! Designed as a top-end management tool to target plants at growth stages when photosynthesis, root growth, and nutrient absorption need an extra boost, foliar feeding stimulates growth. A successful foliar application requires products of proper specifications: a very low salt index, high solubility, low biuret*, and high purity. Feast fertilizers exceed all these qualifications for a foliar feeding program that's highly effective at increasing both quality and yield.

- Boosts photosynthesis in essential growth stages
- Enhances growth and vigor of plants
- Non-corrosive to equipment

We have seen up to a 20-25% yield increase in crops: soybeans, corn, and cotton. The Conklin AgroVantage System is the highest-quality product on the market today that can increase your yield and is a more economical solution for today's high commodity prices.

Conklin's Feast 8-16-11 w2S starter fertilizer is the most efficient in-row plant food on the market. This low-salt fertilizer is 100% readily available to our corn in the furrow and is seed safe to ensure early germination. When you want a great yield on a cost-per-bushel basis, Feast 8-16-11 is the top-notch quality for in-row and foliar feeding on your farm in Nebraska.

Essential secondary and micronutrients help crops achieve genetic potential for 40 years

Once you have your AgroVantage soil and/or plant tissue analysis results and recommendations, choose from a full line of Feast Micro Master chelated secondary and micronutrients to balance the deficiencies of your soil and plants. These nutrients are designed for co-application with starter or foliar fertilizers.

All of our formulations are either 100%-chelated using EDTA-chelating agents (to resist soil tie-up and provide universal compatibility) or are complexed to provide ideal physical characteristics for ease-of-handling.

- Unsurpassed in consistency, purity, and nutrient availability
- Economical, effective, and easy-to-use
- 5 to 10 times more efficient than inorganic sources
- Compatible with most fertilizers

Applying Chelated Manganese to glyphosate-resistant soybeans reduces yellow flash and improves yield by an average of **7.4** Bu./A.

Considered a worldwide authority on soybeans, Kip Cullers has earned multiple world records in soybean production, NCGA national yield contest wins, and world records in vegetable production. Kip Cullers has partnered with Conklin Company to bring American farmers the Kip Cullers' Nutrient Compass Foliar Fertilizer. This easily incorporated product is designed to increase yields and profits.

Kip Cullers' Nutrient Compass Foliar Fertilizer stimulates corn, beans, wheat, alfalfa, and other crops at strategic growth stages to push plants to achieve greater yields and increase farmers' profit potential. This is accomplished by helping the plants:

- Develop a larger root mass
- Take up more nutrients
- Increase yield and test weight

For general applications, use 1-2 quarts per acre in a foliar application with most herbicides and foliar fertilizer applications. Application windows include:

- Corn - V3-V5 and/or one week before tassel
- Soybeans/Dry Beans - V3-V5 and/or at first flower
- Small Grains (wheat, rice, etc.) - When plants are 3-8 inches tall and/or at flag leaf/boot stage
- Alfalfa - As alfalfa crowns out after each cutting
- Cotton - At pinhead square

Typically, the early applications have shown the strongest response.

Kip Cullers' Nutrient Compass Foliar Fertilizer

A proprietary blend of NPK fertilizer, micronutrients, and sucrose, the Kip Cullers' Nutrient Compass Foliar Fertilizer is designed to stimulate plants at critical growth stages to take up more nutrients, and push plants to achieve greater yields and increase farmers' profit potential.

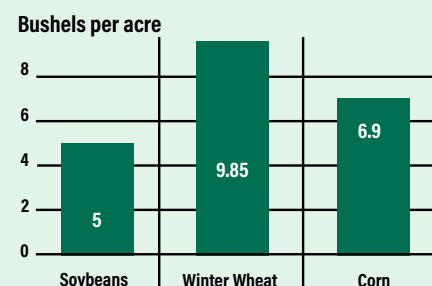

- Encourages more photosynthesis through larger leaves
- Increases nutrient uptake through increased root mass
- Designed to be used in conjunction with the AgroVantage System
- Low application rates, near neutral pH

- #041657 5 gallons
(in two 2.5-gallon containers)
- #041660 250-gallon mini-bulk

Results of Using Kip Cullers' Nutrient Compass Foliar Fertilizer

Yield Advantage - Bushels per Acre National Averages

Yield Advantage - Pounds per Acre National Averages

Perfect spray solutions

Adjuvants perform a variety of functions to improve the performance of an array of spray applications. The Conklin AgroVantage System offers products to match your chemical and application needs.

**Bulls Eye®
Drift Retardant/Deposition Aid**

Keeps your spray solution on target

Cuts down on chemical losses, while maintaining an effective spray pattern. By reducing drift due to off-target movement, applicator exposure is minimized. Increases accuracy and carries the spray deeper into the canopy. One to 16 ounces treats 100 gallons of spray solution.

- Larger, more uniform droplets
- Spray in light wind conditions

#055251 12 - 32-oz/quart bottles (case)

**Complete™
Liquid AMS/Drift Retardant Blend**

Easy handling, fast blending, and reduced plugging

Designed primarily for use with herbicide labels which specify ammonium sulfate (AMS) for water conditioning. Formulated as a liquid product for easier handling, faster blending, and elimination of plugging problems inherent with many dry ammonium sulfate products. Each quart of Complete contains 0.85 pound of AMS.

- Highest-quality, spray-grade AMS
- Contains drift retardant

#039362 5 gallons (in two 2.5-gallon containers)

#039375 135-gallon mini-bulk

#039380 250-gallon mini-bulk

#039391 bulk

**Rain Fast®
Surfactant/Wetting Agent**

Produces rain-fastness, leaf wetting, and stomatal flooding

Maximizes performance of pesticide and foliar fertilizer applications. Keeps your solutions on target and produces stomatal flooding. Does an unbeatable job in water-based sprays and with fungicide applications. Six to 12 ounces treats 100 gallons of spray solution; 1 gallon treats 1,100 to 2,100 gallons of spray solution.

- Improves pesticide efficiency
- Produces superior leaf wetting, spreading, and penetration
- 100% active ingredient NIS (non-ionic surfactant)

#037895 1 gallon

#037911 5 gallons (in two 2.5-gallon containers)

**Wex®
Multi-purpose Wetting Agent with NRA®**

Improves liquid fertilizer and pesticide coverage and penetration

For 50 years, Wex has been maximizing the effectiveness of liquid-applied fertilizer and pesticides with improved suspension. Exclusive, nutrient-related action (NRA) technology stimulates root development, improving water and nutrient absorption. Results include increased root mass, higher organic matter, and higher yields. Pre-plant/pre-emerge soil amendment application rates are 1 pint to 1 quart per acre. (Consult specific pesticide labels for usage rates.)

- Improves penetration and knocks down foam
- Increases yields when applied at higher rates
- Great for burndown and pre-emerge chemical applications

#002071 5 gallons (in two 2.5-gallon containers)

#002092 135-gallon mini-bulk

#002100 250-gallon mini-bulk

#002048 bulk

**Home Run®
Methylated Soy Adjuvant**

Increases herbicide performance and penetration into leaves

Maximizes surface spreading and penetration, and increases pesticide activity under low-humidity and high-temperature conditions. One to 2 pints per acre or 1 to 5 quarts per 100 gallons of spray solution.

- Improves post-emergent herbicide performance
- Disperses easily for trouble-free mixing

#037937 5 gallons (in two 2.5-gallon containers)

**Kombind®
Compatibility Agent/Acidifier/Buffer**

Improves blending, acidifies, and buffers spray solution

When mixed with fertilizers and pesticides, improves compatibility and stability. As a compatibility agent, use 8 to 16 ounces per 100 gallons nitrogen solution fertilizers; 16 to 24 ounces per 100 gallons liquid-mixed fertilizers. As an acidifier/buffer, use 1 to 24 ounces per 100 gallons.

- Prevents plugged lines
- Lowers and buffers pH of spray solutions

#009886 4 - 32-oz/quart bottles (case)

#009829 5 gallons (in two 2.5-gallon containers)

The Conklin lineup of adjuvants is by far the most efficient and economical lineup in the industry. Whether it's low use rates with high potency or calculators that fine tune those products to make sure you aren't over spending, I'd never go back to another supplier.

- TYLER HARRIS

Wex® is an outstanding pre-emergent product that goes a quart/acre that provides a deeper root structure, builds soil health, and increases roots per plant. They go deeper and get more from your soil.

- TODD H., NEBRASKA

For best results, always read and follow label instructions. Results may vary.

**Knock-Out™
Anti-foam Agent**

Prevents foaming for improved spray solutions

Controls both entrained and surface foam in agricultural sprays. Performs well with all agricultural chemicals and is highly recommended for use with glyphosate herbicides. Mix 1 to 2 ounces per 100 gallons.

- Prevents foaming
- Knocks down foam in spray tanks

#039495 4 - 32-oz/quart bottles (case)

Accelerate the development of your crops with Conklin AgroVantage Biostimulants

These EPA-registered plant growth regulators and liquid sugar products promote root growth and development, and stimulate cell division to encourage more efficient use of nutrients and promote a healthy soil ecology.

These easy-to-use, effective products work with your fertility and protection programs at key growth stages to better utilize nutrients. Great to use with starter and foliar fertilizer and other crop protection products.

- Stronger roots and quicker emergence
- Healthier plants and increased yields
- Increases flowering
- Enables greater photosynthesis
- Enhances grain development
- Triggers transitions from vegetative growth to the flowering stage
- Provides ability to overcome cool weather challenges

Soil X-CYTO®

EPA-registered plant growth regulator

For general applications, use 10 to 30 ounces per acre with starter fertilizer in-furrow or 4 to 8 ounces per acre of seed as a seed treatment to enhance plant health, increase resistance to various challenges, and stimulate growth and development.

#054783 4 gallons (case)

Foliar X-CYTO®

EPA-registered plant growth regulator

For increased yields, depending on crop, apply 8 to 30 ounces per acre broadcast or 5 to 10 ounces per acre banded in combination with foliar feeding to stimulate plant biochemical processes and maximize plants' genetic potential.

#057744 4 gallons (case)

Kip Cullers' INTENSIFY®

Healthier plants and increased yields

Contains a blend of plant growth regulators designed to promote root growth and development, stimulate cell division and elongation, and enhance germination. Each container treats 50 acres when used with starter or foliar applications.

- Triggers transition from vegetative growth to the flowering stage
- Helps overcome cool weather challenges
- Enhances grain development

#041785 12.8 oz container

Syntose FA®

Sugars provide necessary energy to stimulate microbial life in your soil, promoting healthy soil ecology

A unique blend of readily available sugars, molasses, and fulvic acid, which is ideal for use on all soils and plants. Syntose FA easily incorporates into current operations, readily mixing with starter fertilizers and other key nutrients and chemistries. One pint provides 1 pound of sugar.

- #041792 5 gallons (in two 2.5-gallon containers)
- #041793 135-gallon mini-bulk
- #041794 250-gallon mini-bulk

Preserve the feed value of your forage and silage

Improper fermentation, heat damage, and runoff can prevent you from getting the most nutrients from your crop. Conklin AgroVantage's forage treatments solve common problems faced by forage producers for over 25 years.

Feedstore® hay inoculant, Feedstore® Generation II silage inoculant, and Pro-Serve® forage treatments are necessary components of your crop management system. By promoting proper preservation, you'll recover more dry matter and retain more nutrients for your livestock.

**Feedstore®
Live Microbial Hay Inoculant**

Bale at higher moisture levels, such as small square bales with up to 23% moisture

Baling at higher moisture levels prevents leaf loss, resulting in increased protein, enhanced feed value, and greater tonnage per acre. This water-soluble powder is the product of choice for applications at the baler. One 100-gram packet treats 25 tons of hay.

- Increases protein, feed value, and palatability
- Retains dry matter and nutritional value

#037093 100-gram packet water-soluble powder (WSP)

**Feedstore® Generation II
Live Microbial Silage Inoculant**

Guards against spoilage, reduces runoff, and increases bunk life

Using live microbials, it promotes fast fermentation with minimal loss of nutrients and dry matter. That means more meat or milk when you feed Feedstore-treated silage to your livestock. This product, for use in vertical silos, bag systems, high-moisture wrapped bales or bunkers, is non-toxic and non-corrosive. One packet or bag treats 50 tons of forage.

- Retains more ensiled forage dry matter and nutritional value
- Reduces silage runoff and extends bunk life
- Protects against spoilage and protein loss

#055228 100-gram packet water-soluble powder (WSP)
#055236 50-lb dry granular bag

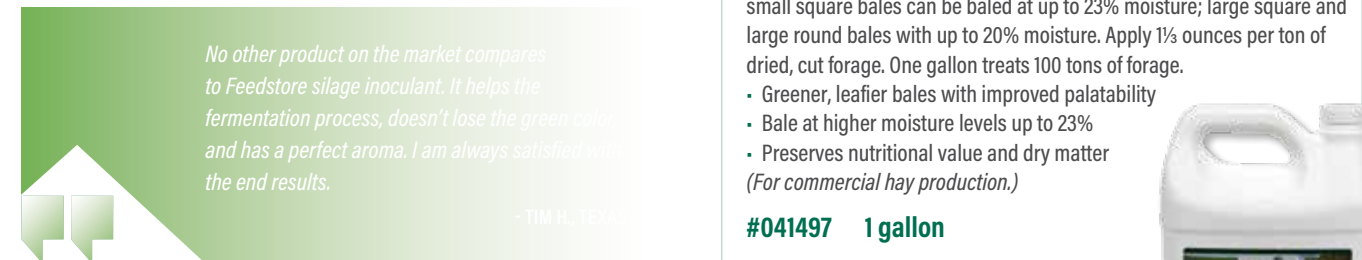

**Pro-Serve®
Forage Treatment**

Recommended application at the swather or haybine

Pro-Serve naturally preserves hay to retain more nutrients. When applied, small square bales can be baled at up to 23% moisture; large square and large round bales with up to 20% moisture. Apply 1½ ounces per ton of dried, cut forage. One gallon treats 100 tons of forage.

- Greener, leafier bales with improved palatability
- Bale at higher moisture levels up to 23%
- Preserves nutritional value and dry matter (For commercial hay production.)

#041497 1 gallon

No other product on the market compares to Feedstore silage inoculant. It helps the fermentation process, doesn't lose the green color, and has a perfect aroma. I am always satisfied with the end results.

- TIM H. TEASDALE

For best results, always read and follow label instructions. Results may vary.

Taking AgroVantage® System innovation to lawns and gardens

- Healthier, more productive plants
- Increased vegetable and garden production
- Effective and efficient applications
- Safe, easy-to-use, and economical products
- Be the envy of the neighborhood

LAWN & GARDEN PRODUCTS

Greener, healthier lawns and gardens

The nationally recognized Conklin AgroVantage program is ideal for homeowners, lawn care professionals, and gardeners. Conklin uses the highest-quality materials to provide fertilizers that deliver reliable results time after time. Anyone who wants a healthy, beautiful lawn and garden can put AgroVantage products to work for exceptional results on grass, flowers, and plants.

Big crops in smaller packages

Conklin's agronomic products have been helping farmers grow award-winning crops for years. Now they're available in smaller sizes so greenhouses, nurseries, truck farms, and gardens can enjoy the same "AgroVantages" – stronger starts, healthier plants, greater yields, and increased profitability.

AgroVantage lawn and garden product customers:

- Greenhouses/Nurseries
- Lawn Care Professionals
- Truck Farmers
- Home Gardeners

FEAST® FERTILIZERS

Feast® Liquid Plant Food

Grows greener healthier gardens and house plants

All-purpose liquid promotes healthier plants, larger flowers, and bigger harvest from your garden. Soil and foliar applications allow you to select the best way to meet the nutritional needs of your plants. Match the Feast fertilizers to your garden's particular needs.

For use with: **Garden** **Houseplants** **Lawn**

9-18-9 Houseplant and Garden Fertilizer

#036103 12 - 8-oz bottles (case)

3-18-18 Soil/Foliar Fertilizer

#007278 5 gallons (in two 2.5-gallon containers)

Feast® Side-Kick™ Soil/Foliar Fertilizer

#038690 5 gallons (in two 2.5-gallon containers)

Feast® Premium Plus Turf Fertilizers

Nourishes turf with fewer applications

Convenient, easy-to-use liquid assures more uniform coverage than standard, dry fertilizers and nourishes plants more evenly for faster results. Slow-release formula provides essential nutrients for extended time periods, growing thicker, greener, healthier lawns.

For use with: **Lawn**

21-0-6 w4S

#040571 5 gallons (in two 2.5-gallon containers)

#040579 250-gallon mini-bulk

#040590 bulk

28-0-0

#039320 250-gallon mini-bulk

#037689 bulk

For best results, always read and follow label instructions. Results may vary.

WETTING AGENTS

Wetting Agents

Maximize the performance of pesticides and foliar fertilizer applications and help keep your solutions on target plants with one of the Conklin line of wetting agents.

- Reduce foaming
- Improve penetration and coverage
- Enhance effectiveness of pesticides

For use with: **Lawn** **Garden**

Wex®

Exclusive nutrient-related action (NRA) technology stimulates root development, improving water and nutrient absorption. Also maximizes the effectiveness of pesticides.

#002071 5 gallons (in two 2.5-gallon containers)

Rain Fast®

This 100% active ingredient wetting agent produces rain-fastness, leaf wetting, and stomatal flooding, while maximizing performance of pesticides and foliar-applied fertilizer.

#037895 1 gallon

#037911 5 gallons (in two 2.5-gallon containers)

Putting your animal's health on the "Fastrack"

Conklin has invested over 35 years into developing its Fastrack® direct-fed microbials to support the health of animals. The perceptive work of researcher Dr. Eugene Sterns resulted in the development of the Fastrack line of animal products. Fastrack's formulas include beneficial bacteria, yeast, and enzymes that support milk, meat, and poultry production, helping animals perform at their best. Known industry-wide for continually improving its products, Fastrack is a leader in probiotic health. In fact, the Fastrack product line was the inspiration behind Conklin's LIFETRACK® Nutrition products.

ANIMAL PRODUCTS

Fastrack products have helped Conklin customers, whether they are producers, breeders, or kennel owners, achieve their production and show ring goals. Key animal health professionals and pet owners wanting to aid in the immune response and digestive health of their animal's entire life cycle can choose from an array of gels, boluses, microbial packs, and supplements to get on the "Fastrack" to a healthy and more productive life.

Fastrack serves these key animal health professionals and consumers:

- Livestock and Poultry Professionals
- Animal Nutritionists
- Production Managers
- Integrators for Dairy, Poultry, and Swine
- Seedstock Producers
- Veterinarians
- Performance Horse Owners and Trainers
- Pet Owners
- Kennel Owners

FASTRACK® MICROBIAL SUPPLEMENTS

Fastrack's Microbial Pack is our SIGNATURE PRODUCT and where the microbial product line began. Fastrack's premium granular direct-fed microbial products are user-friendly – just top-dress, mix with feed, or add it in to a total mixed ration (TMR).

Fastrack Microbial Pack

For use with the following animals:

- Large Ruminants
- Small Ruminants
- Poultry
- Swine
- Horses

- #016063 5-lb bag
- #016014 10 - 5-lb bags (bale)
- #016097 50-lb (bulk)
- #077586 1 top-dressing scoop (53 cc)

Fastrack Equine Microbial & Enzyme Pack

For use with the following animal:

- Horses

- #041630 4-lb bag
- #041633 4 - 4-lb bags (case)
- #041636 12-lb bag

My first experience with Fastrack Equine Microbial & Enzyme Pack came with the breeding of a 23-year-old well-bred mare, I got for a song. The previous owners had paid for a breeding clinic for two years and were not successful getting her bred. I put her on Fastrack for three months before I bred her and she got bred the first cycle. She continued breeding and had her last foal at 28!! Once I started all my mares and studs on Fastrack, I never had to rebreed any of my mares.

- KRIS P., MONTANA

FASTRACK® GELS

The Fastrack line of gels provides a great way to supply direct-fed microbials to newborns and animals that are off feed due to illness or stress. Administer whenever the animal is being worked, prior to and during transportation, or following antibiotic treatment. These multi-dose tubes support the animal's digestive and immune system from day one.

Fastrack® Equine Gel Ultra

For use with the following animal:

- Horses

#041808 20-mL tube
#041810 20-mL tubes (case of 6)

Fastrack® Non-Ruminant Microbial Gel Ultra

For use with the following animals:

- Swine
- Cats
- Rabbits

#041812 30-mL tube
#041814 30-mL tubes (case of 12)

Fastrack® Ruminant Microbial Gel Ultra

For use with the following animals:

- Large Ruminants
- Small Ruminants

#041816 80-mL tube
#041818 80-mL tubes (case of 6)
#041820 280-mL tubes (case of 6)
#041822 280-mL tubes (case of 36)
#077313 1 applicator gun for 280-mL tube

Fastrack® Canine Gel Ultra

For use with the following animal:

- Dogs

#041802 20-mL tube

Fastrack® Jump-Start™ Gel Ultra

For use with the following animals:

- Large Ruminants
- Small Ruminants

#041804 60-mL tube
#041806 60-mL tubes (case of 6)

I buy bottle calves and give them Jump-Start Gel and Liquid Dispersible in their bottles. When I wean them, I feed them Fastrack Microbial Pack every day until they are ready to slaughter. My customers comment on the quality of the meat, the marbling, and flavor. My beef has been favorably compared to expensive Wagyu meat. I cannot afford to raise animals without Fastrack!

- DAVID C., MISSOURI

FASTRACK® BOLUSES

The microbes in quick-dissolving Fastrack Ruminant and Calf Boluses support a strong, healthy digestive tract and immune system. Start your newborn animal off right by giving a Calf Bolus at birth and at weaning. Supplement anytime thereafter, especially during stressful times with the Calf or Ruminant Bolus, depending on the size of the animal.

Fastrack® Ruminant Bolus (for larger Ruminants)

For use with the following animal:

- Large Ruminants

#055459 1 container (25 boluses)

Fastrack® Calf Bolus

For use with the following animals:

- Young Large Ruminants
- Small Ruminants

#055467 1 container (50 boluses)

FASTRACK® NUTRILIFT® AND LIQUID DISPERSIBLE

Fastrack NutriLift has specialized proteins for immune support, making it perfect for the first few days of an animal's life, followed by Fastrack Liquid Dispersible for optimal health.

Fastrack NutriLift®

For use with the following animals:

- Young Large Ruminants
- Young Small Ruminants
- Young Poultry

#057341 1-lb container

Fastrack® Liquid Dispersible

For use with the following animals:

- Young Large Ruminants
- Young Small Ruminants
- Poultry
- Swine
- Rabbits

#036616 1-lb container
#036639 4 - 1-lb containers (case)
#039305 22-lb pail
#039310 44-lb pail

The difference in our calves before Fastrack compared to now is unimaginable. Putting Fastrack Liquid Dispersible in our calves' milk bottles each feeding helped support them through challenging times. Now the calves are taller with a better frame at weaning. Thanks to changing to the Fastrack program, my grandsons had junior champions at every junior and open show they entered this entire season. We will never stop using Fastrack!

- DON B., MISSOURI

FASTRACK® COMPANION ANIMAL SUPPLEMENTS

FASTRACK® COMPANION ANIMAL MICROBIAL POWDERS

These easy-to-use supplements and nutritional treats complement a well-rounded feeding program for a lifetime of health and vitality for your best friend.

Fastrack® Adult Dog Supplement

Supplies additional nutrients at levels not found in most dog foods. This premium formula provides high levels of 10 chelated minerals, vitamins, and linoleic acid. These components complement your dog's current nutrition program with highly bio-available nutrients.

For use with the following animal:

• Dogs

#056752 1 bottle (60 tablets)

Fastrack® Canine Treats

Reward your dog with a treat that's both healthy and tasty. Lactic acid-producing bacteria found in Fastrack Canine Treats helps aid in a healthy digestive system, while the liver flavor will leave your dog begging for more.

For use with the following animal:

• Dogs

#056893 1 bag (60 treats)

Fastrack® Senior Dog Supplement

This special formula provides vitamins and minerals, plus glucosamine HCl and chondroitin sulfate. Recommended for maintaining healthy, active older dogs and helping dogs with joint issues.

For use with the following animal:

• Dogs

#056775 1 bottle (60 tablets)

Fastrack Fortifier®

Fortify your animal during training, show circuits, and periods of suppressed health with this ideal product. This once-a-day horse supplement contains a specialized blend of herbs, vitamins, and minerals to aid stamina, joint health, and appearance. Recommended to be fed with the Fastrack Equine Microbial & Enzyme Pack.

For use with the following animal:

• Horses

#056701 4-lb pail

From young to senior companion animals, support their digestive tracts with direct-fed microbials. The dual-purpose lid allows you to decide if you would like to shake on the powder or use the included scoop to add to your pet's food.

Fastrack® Feline Microbial Supplement

For use with the following animal:

• Cats

#056915 150-g container

Fastrack® Canine Microbial Supplement

For use with the following animal:

• Dogs

#038869 300-g container
#057248 5-lb pail

WASTE TREATMENT & DISINFECTANT

When you have livestock, poultry, or companion animals, ammonia and noxious gases are produced as animal waste decomposes. This irritates the tissue lining of the respiratory tract. Inhibodor® helps reduce odors and Sanox II® disinfects, keeping animal performance high and damage to buildings low.

Inhibodor® Animal Waste Treatment

Binds ammonia and reduces odors. All-natural ingredients effectively bind ammonia (NH₃) in an environmentally friendly manner.

#054940 1 gallon

Sanox II® Disinfectant Cleaner

An ultra-concentrated cleaner used to disinfect confined feeding and housing areas, minimizing carry-over of disease in all-in/all-out animal production systems.

#050357 6 pints (case)
#050328 4 gallons (case)
#077172 1 (empty) 22-oz spray bottle

After only 4-5 days of starting my barrel racing horse, Cookie, on Fastrack products, I started noticing improvements. The real test came when we went to a three-day show during very hot weather. Cookie showed no signs of stress or an upset stomach. He has always been a finicky eater, but with Fastrack, he isn't anymore. I believe in the product, because it showed me quick results.

- ANDREA K., INDIANA

My daughter and her husband adopted a hound dog named Ladybird. When they got her, she would lay around and walked slowly. She was obviously in pain. Our daughter started her on Fastrack Canine Gel Ultra and Senior Dog Supplement, and she added Canine Microbial Supplement to Ladybird's food. She has been on all of this for about a month. Ladybird is now running with the other dogs, jumping on the bed and couch, eating normally, and has normal bowel movements! We are thrilled that Ladybird is doing so well and is one happy dog!

- CAROLYN B., TENNESSEE

Keeping your health on track for life

Today's LIFETRACK® Essential and Targeted Nutrition Products marry nature's best ingredients with cutting-edge science for top quality and potency. Formulated by experts, backed by researchers, and endorsed by countless customers, LIFETRACK Nutrition Products meet or exceed the high standards of health professionals and savvy customers. By launching one of the first human probiotics available on the market, Conklin Nutrition Products have a proven record of helping to keep you, your family, and your customers' health on track for life.

PLUS support tools to help you achieve your healthy lifestyle goals including measuring tape, measurement chart, healthy lifestyle cards, and HealthFirst brochure!

#201320

Providing professional strength for professional performance

The same customers depending on long-lasting protection of their vehicles and equipment started looking for fast-acting formulas to erase all kinds of dirt, grease, and grime from almost any surface. Conklin's professional-strength cleaners have been a customer favorite for more than 40 years. These concentrated cleaners are the most economical choice, because customers are buying pure cleaning power, not gallons of water. Once you try Conklin cleaners, you'll understand why they inspire such customer loyalty. Our customers won't try anything else – and neither will you.

CLEANING PRODUCTS

Conklin Cleaning Products serve these businesses and many more:

- Professional Cleaning Services
 - Residential, Commercial, Office, and Retail
 - Auto Detailers, Salons, and Laundromats
 - Medical and Veterinarian Offices and Clinics
- Industrial Sites
 - Crop Producers
 - Contractors
- Home Use
 - Cleaners
 - Laundry

LAUNDRY PRODUCTS

One bottle of Waush® Laundry Detergent is equal to four bottles of the leading brand, because it is super-concentrated. Remove tough stains without bleach or solvents with pre Waush™ Laundry Prespotter Spray.

pre Waush™ Laundry Prespotter Spray

Removes stains without bleach or petroleum solvents

pre Waush removes spots and stains with d-Limonene, a worry-free formula that allows you to treat stains up to a week before washing. pre Waush is highly effective in all water temperatures and leaves behind a fresh, clean scent.

#040582 6 - 32-oz/quart spray bottles (case)

My wife was apprehensive when I told her about Waush laundry detergent. She challenged me with a pair of pants that she tried to get the musty smell out of for some time. That was over a year ago. Today, she still loves the Waush product and its fresh, non-overbearing scent. I love the price, because I like saving money any place I can.

- MIKE S., PENNSYLVANIA

Waush® Ultra Fresh & Waush® Hypoallergenic Laundry Detergents

Superior cleaning power for standard and High Efficiency (HE) washers

Choose from our two formulas that work even in cold water - which saves energy and lowers your utility bill. Waush Hypoallergenic contains no dyes or perfumes for those with sensitive skin. Convenient pump accurately dispenses ½ to 1 ounce.

WAUSH ULTRA FRESH LAUNDRY DETERGENT

#040635 4 - 64-oz/half-gallon bottles (case)

#040644 4 gallons (case)

WAUSH HYPOALLERGENIC LAUNDRY DETERGENT

#041275 4 - 64-oz/half-gallon bottles (case)

DISPENSER PUMPS

#078557 1 pump for 64-oz bottle

#078769 1 pump for gallon bottle

CLASSIC CLEANERS

Undeniable favorites of loyal customers for years

Today, your family, your business, and your customers have come to rely upon the strength and economy of Conklin Classic Cleaners. Let our Classics make light work of cleaning tasks, whether for professional services or your home.

Mox[®] Concentrated Multipurpose Cleaner

Highly concentrated — 1 quart makes 16 of the 22-ounce spray bottles

Mox replaces multiple cleaners and handles your toughest cleaning jobs, from greasy kitchen appliances to grimy bathroom surfaces. Concentrated, biodegradable formula removes stains without harsh bleaches or solvents.

- #001722 6 - 32-oz/quart bottles (case)
- #001768 4 gallon bottles (case)
- #077180 Empty 22-oz spray bottle

Spring Dew[®] Multipurpose Dish Soap

Tough on grease — gentle on hands

This biodegradable formula takes the work out of cleaning greasy dishes, but is gentle enough to use as a liquid hand soap or for hand-washing fine fabrics. This product is a favorite, because it's strong enough to clean floors, walls, and countertops.

SPRING DEW WITH A SLICE OF CITRUS

- #040913 6 - 32-oz/quart bottles (case)
- #040936 4 gallon bottles (case)

SPRING DEW DISPENSER

- #040942 Empty 16-oz/pint dispenser

Reflections[®] Plus Multipurpose Glass Cleaner

Anti-fog, streak-free formula

This ammonia-free formula offers you superior cleaning that is powerful enough to cut dirt and film on windows, mirrors, countertops, stovetops, and refrigerators. The streak-free, anti-fog properties work wonders on bathroom mirrors and your vehicle's windows.

- #040612 6 - 32-oz/quart spray bottles (case)
- #010512 4 gallon bottles (case)
- #040624 Empty 32-oz/quart spray bottle

Cleaning your windows is one of the quickest ways to make your home lighter and brighter all year round. As a mom of two little kids, Reflections Plus is one of my go-to products to wipe away those pesky streaks and fingerprints, leaving my windows spotless.

- JENNIFER V., MISSOURI

Citrus Care[®] Waterless Hand Cleaner

Waterless hand cleaner - a must for the shop and garage

Made with natural orange oil, it quickly removes grease and dirt from your hands without water. With one squirt, rub hands together and wipe dry for clean, moisturized hands.

- #039545 6 - 16-oz/pint bottles (case)

I've never found anything that removes black tar from my hands except for gasoline. But Citrus Care Hand Cleaner takes it off immediately. It's amazing and it smells great, too!

- LESTER V., KANSAS

HEAVY-DUTY CLEANERS

Conklin's industrial-strength formulas take the elbow grease out of your toughest cleaning jobs.

Sanox II[®] Disinfectant Cleaner

Kills germs and fights mold on contact

This hospital-strength formula disinfects hard, non-porous surfaces in bathrooms, kitchens, and laundries, as it kills illness-causing germs and bacteria. Sanox II also sanitizes litter boxes, kennels, diaper pails, and garbage cans. It fights mold, mildew, and fungus in damp or humid areas. Concentrated and easy to mix: just add 2 teaspoons per 22-ounce spray bottle, or 2 ounces per 1 gallon for hospital-strength cleaning.

- #050357 6 - 16-oz/pint bottles (case)
- #050328 4 gallon bottles (case)
- #077172 Empty 22-oz spray bottle

An agriculture customer of mine told me he just purchased a home, but he was going to have to replace the tub. I told him to try Crust Buster Lime & Scale Remover. He did and was ecstatic! His tub looked brand new. He was so happy that he saved a lot of work and a lot of money!

- MALINDA G., INDIANA

Multi-Surface Cleaning Gel[™] Rust & Lime Remover

Makes your stainless steel sinks and cookware shine like new

This non-abrasive gel formula cleans and shines stainless steel, chrome, aluminum, brass, metal cookware, and copper-bottom pans. Powers away rust and mineral deposits on fiberglass, porcelain and ceramic surfaces, concrete, terrazzo, and stone floors.

- #002521 6 - 16-oz/pint bottles (case)

Crust Buster[®] Lime & Scale Remover

Dissolves heavy mineral deposits on bathtubs, sinks, and more

This concentrated formula is formulated to wipe away your most difficult hard water deposits and mineral buildup. Lime & Scale Remover is a heavy-duty, industrial-strength cleaner, yet it is safe for fiberglass, porcelain, acrylic, and ceramic surfaces.

- #002758 6 - 32-oz/quart bottles (case)

#009333

I have used the Conklin Classic Cleaners for almost 40 years in my home and commercial cleaning business. Besides saving time and money, I have made a career out of providing customers with outstanding results using Conklin Cleaners.

- CLARIS G., INDIANA

Delivering innovative, energy-saving roofing systems

Another one of Conklin's key lineup of products originates from its Roofing Systems Division. In 1977, Conklin's Research and Development team recognized and responded to the needs of its loyal farming customers to waterproof barns and leaky outbuildings by pioneering the development of white acrylic elastomeric roof coatings, forever changing the white reflective cool roof industry. This offered superior protection against the elements and provided substantial energy savings.

Conklin's CRRC-rated, (Cool Roof Rating Council) reflective surface products are now the industry standard for environmentally friendly roofing materials, keeping buildings cooler by reducing the sun's heat and ultraviolet rays, along with lowering air conditioning costs and the overall carbon footprint.

Today, Conklin's lightweight, flexible, seamless, waterproof products can be installed on nearly any existing roof, providing profitability for contractors with a variety of roof systems. With 45 years of tested, proven, and trusted performance, Conklin continues to deliver unsurpassed value to building owners across the nation.

ROOFING SYSTEMS PRODUCTS

What Conklin Cool Roofs Do for You

- Reduce air conditioning bills
- Increase roof durability
- Lower air temperature surrounding air conditioning units
- Help lower the heat island effect
- Provide sustainable roofing systems
- Reduce landfill waste by recoating existing roofs

Conklin Roofing Systems serve these customers and more:

- Retail establishments
- Hotels
- Restaurants
- Industrial
- Restoration
- Warehousing
- Manufacturing
- New Construction

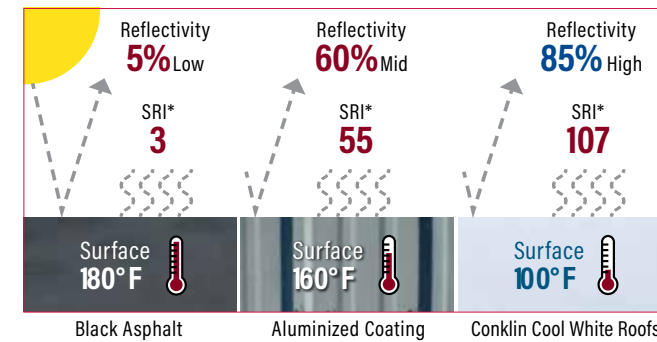

Over Four Decades of Superior Performance!

CONKLIN COOL ROOFING SYSTEMS

White Roofs Drive Energy Costs Down

Highly reflective "cool" roofs are having their day in the sun. During the warmest weather, studies have indicated that they lower roof temperatures by up to 40% and decrease the amount of heat transferred into a building's interior. That helps reduce energy needs for cooling, and using less energy not only saves money, it also reduces the amount of pollutants released into the atmosphere. Conklin Roofing Systems meet the very highest standards for energy efficiency.

Ambient Temperature 90° F: Statistics taken from www.reliant.com

*The Solar Reflectance Index (SRI) is a measure defined by the Lawrence Berkeley National Laboratory as the roof's ability to reject solar heat, as shown by a small temperature rise. It is defined so that a standard black (reflectance 0.05, emittance 0.90) is 0 and a standard white (reflectance 0.80, emittance 0.90) is 100. Due to the way SRI is defined, particularly hot materials can even take slightly negative values, and particularly cool materials can even exceed 100.

Source: Cool Roof Ratings Council

Conklin's Cool Roofs Meet the Highest Standards for Reflectivity and Emissivity

These qualities result in a highly durable roof that:

- Reduces severe temperature fluctuations that cause thermal movement and stress
- Reflects damaging UV rays to help slow the aging process of the roof
- Lowers roof temperatures, reducing the rate of chemical breakdown

CRRC-Rated Protection

Conklin Company is proud to be a partner of the Cool Roof Rating Council (CRRC). Our white roof systems meet the CRRC's stringent guidelines on solar reflectance and thermal emittance and help protect the environment through energy efficiency in a number of ways by:

- Decreasing the energy required to cool the building, resulting in less air pollution
- Reducing the amount of roofing materials discarded into landfills through exceptional sustainability
- Minimizing summertime heat island effects in city environments, slowing down the formation of smog

CONKLIN COOL ROOFING SYSTEMS

Roof replacement, repair, and restoration services are in high demand – and we have the solution for almost any need!

Any savvy business owner knows quality, performance, and value are important factors to consider in a roof. But at Conklin, those attributes are just the baseline in the development of our roof systems. Our lightweight, seamless, and weather-proof systems exceed the most rigorous industry standards and do more than just protect—they can actually pay for themselves! Conklin's white roof systems reflect the sun's heat and UV rays to keep buildings cooler and reduce air conditioning costs. In addition, periodic recoats can offer superior protection for decades without the expense of a new roof.

With our wide variety of roofing systems, we meet almost any roofing challenge with a high-quality, long-term solution. Conklin Roofing Systems can be applied to metal roofs, built-up roofs, modified bitumen, EPDM, asphalt, concrete, and more!

Fabric-Reinforced Roofing System

Rugged, hail-rated roof lowers energy costs

Conklin's Fabric-Reinforced Roofing System will give your building trouble-free protection. It waterproofs with a seamless acrylic coating in which a tough, flexible fabric is embedded. This combination makes a rugged, yet lightweight, membrane that resists splitting and rupturing – the primary cause of leaks. This system also substantially increases the strength of your roof, extends its life expectancy, and increases the energy efficiency of the building.

Advantages of Conklin's Fabric-Reinforced Roofing System:

- Offers excellent wind and hail protection.
- Stops leaks with superior waterproofing.
- Increases energy efficiency and lowers utility expense with its cool, white reflective surface.
- Extends the life of the existing roof.

Membrane Coating System

New life for an old roof

We've taken our innovation to new heights with this complete waterproofing system that can improve and extend the life of an existing membrane. As TPO, PVC, and other membranes become weathered, rooftops can crack, leak, and build up residue, diminishing their effectiveness and energy-saving properties. Conklin's elastomeric coatings provide a new, cost-effective solution for repairing and preserving approved single-ply membranes, resulting in improved energy savings.

Advantages of Conklin's Membrane Coating System:

- Stops leaks with superior waterproofing.
- Increases energy efficiency and lowers utility expense with its cool, white reflective surface.
- Extends the life of the existing roof.

Single-Ply Membrane Systems

Shield your building with the best

Conklin's Single-Ply Membrane Roofing Systems are made with premium thermoplastic membranes. During installation, membrane rolls are overlapped and welded together to form an exceptionally durable, waterproof, energy-efficient shield that will deliver unsurpassed protection for years to come.

Advantages of Conklin's Single-Ply Membrane Systems:

- Offers superior protection from wind and hail.
- Offers fire and chemical resistance.
- Up to 20-year and 25-year warranties* available.
- Stops leaks with superior waterproofing.
- Increases energy efficiency and lowers utility expense with its cool, white reflective surface.
- Can be applied in all seasons, performs in all climates.

*Conklin Company Inc. offers limited 20-year and 25-year warranties upon submittal and approval of warranty application by Conklin.

We love Conklin's spray foam and coatings system. Because foam is very lightweight and extremely strong, building owners can avoid expensive tear-offs. Elimination of any potential leak is achieved by a spray-on foam system that makes a 100% seamless roof. Spray foam roofing systems are also very energy-efficient and can often pay for themselves in less than 10 years with the savings on utility bills.

—PERRY Y. MISSOURI

MR System[®] Metal Roof Restoration

Don't replace your roof - restore it!

Conklin's MR System is a complete waterproofing system for metal roofs. It stops leaks, inhibits rust, and provides an energy-efficient, long-lasting, attractive finish coat which will extend the life of your roof for years. During the restoration process, each problem area is systematically addressed, repaired, and resealed, then the entire roof is coated with a reflective finish coat.

Advantages of Conklin's MR System:

- Inhibits rust.
- Enhances appearance with attractive top coat.
- Stops leaks with superior waterproofing.
- Increases energy efficiency and lowers utility expense with its cool, white reflective surface.
- Extends the life of the existing roof.

Spray Polyurethane Foam (SPF) Roofing Insulation System

Stop leaks, energy loss from the top down

Conklin's Spray Polyurethane Foam (SPF) Roofing Insulation System is a great way to provide high-grade roof insulation for superior protection from the elements. With an insulation value of R-6.3 per inch of thickness, SPF effectively controls air infiltration, and reduces cooling and heating costs. During the restoration process, the entire roof is insulated with SPF (at a minimum thickness of one inch) and sealed with a reflective finish coat.

Advantages of Conklin's SPF Roofing Insulation System:

- Stops lateral water seepage with the foam's closed-cell structure.
- Simplifies repairs – most damage can be fixed with caulk gun and sealant.
- Extends the life of the roof.
- Stops leaks.

We have found this system to be an excellent choice for both new construction and existing roof restoration projects. The positive features include full adherence to substrate, no air pockets to create condensation, full fabric immersion in base coat, simple detailing around curbs and vents, white reflective top coat, and painless repairs. This system is fully sustainable for many years, and is a leak-free solution our company and clients love.

— WILLIAM S., MONTANA

Rapid Roof III

Hard-Working, Weatherproof Coating

For use with these roofing systems:

MEMBRANE COATING MR FABRIC FOAM

The workhorse of the Conklin roof coatings line, Rapid Roof has proven itself with 45 years of trouble-free service. This lightweight, flexible, seamless, and weatherproof system carries a UL Class A fire classification. Rapid Roof III in standard white provides an 85% reflective, tack-free, dirt-resistant finish. Continuing to lead in innovation, Rapid Roof III offers several optional colors that also meet the CRRC requirements for reflectivity and energy efficiency.

EQUINOX

Extended-Season Roof Coating

For use with these roofing systems:

MEMBRANE COATING MR FABRIC FOAM

Equinox is the only extended season acrylic coating in the commercial roofing industry today. Equinox significantly speeds up the evaporation of water from the acrylic coating by forming a strong curing film in the 36° F - 60° F temperature range. EQUINOX needs about 20% less coating to cover the same application as traditional acrylics due to higher product solids density.

BASE COAT (BROWN)

- #57380 5 gallons
- #57383 55-gallon drum

TOP COAT (WHITE)

- #57391 5 gallons
- #57394 55-gallon drum

PUMA XL

Extended-Life Roof Coating

For use with these roofing systems: MR FABRIC FOAM

PUMA XL is the latest innovation in the Conklin family of commercial roof coatings. This extraordinary coating combines advanced technology with exceptional versatility, because it can be applied over a variety of substrates. It dries faster than other two-coat systems, and offers a warranty* of up to 18 years, because of its outstanding tensile strength.

TOP COAT (WHITE)

- #57530 5 gallons
- #57535 55-gallon drum
- #57540 220-gallon mini-bulk

*Conklin Company Inc. offers limited warranties up to 18 years on coatings systems upon submittal and approval of warranty application.

Benchmark

Conklin's Premier Acrylic Roof Coating

For use with these roofing systems: MR FABRIC FOAM

Benchmark provides the ultimate combination of flexibility and strength for your toughest projects. This 100% acrylic coating is recognized by most major code organizations, including Underwriters Laboratories (UL) and Factory Mutual (FM). Benchmark also features a Cool Roof Rating Council (CRRC) product rating and an 85% solar reflective value for maximum energy efficiency.

BASE COAT (BLUE)

- #36897 5 gallons
- #36905 55-gallon drum
- #37416 220-gallon mini-bulk

TOP COAT (WHITE)

- #36921 55-gallon drum
- #37424 220-gallon mini-bulk

Benchmark Performance Under the Toughest Conditions

When the Florida Solar Energy Center decided to conduct a demonstration of the energy savings resulting from light-colored roofs, it looked for a product it believed would lower cooling costs during the hot Florida summer. The product it selected was Conklin's Benchmark roof coating. Benchmark was applied to the roofs of seven retail shops in a Cocoa, Florida, strip mall. The results of the demonstration showed a 25.3% average reduction in cooling energy among the seven shops. Individual savings ranged from 13% to 48%.

Rapid Roof HV

Seamless, Waterproof, and Cost-Effective Coating

For use with these roofing systems: MR FABRIC

This high-value system delivers the same waterproof, seamless flexibility, and durability of Conklin's other roofing systems, but at a lower price, because it doesn't carry the costly code approvals and fire ratings. Rapid Roof HV features an 85% solar reflective value.

BASE COAT (PRIME TIME)

- #06379 5 gallons
- #06395 55-gallon drum

TOP COAT (WHITE)

- #37010 5 gallons
- #37028 55-gallon drum
- #37440 220-gallon mini-bulk

*Rapid Roof HV can only be used on concrete when it is used in the Fabric-Reinforced System.

SINGLE-PLY MEMBRANES

REINFORCEMENT PRODUCTS

FLEXION XL[®] PVC

Single-Ply Membrane

For use with this roofing system: **SINGLE-PLY**

This CRRC-rated, thermoplastic membrane (PVC) provides fantastic protection from the elements. Its unique PVC formulation has been modified with DuPont[®] Elvaloy[®] for superior strength, durability, and flexibility. It is naturally fire-resistant and has been recognized by most major code approval agencies. FLEXION XL is an excellent choice for both new and re-roofing applications.

- #58123 FLEXION XL Roll (78" x 100')
- #58126 FLEXION XL Half-Width Roll (39" x 100')
- #58129 FLEXION XL Unsupported Roll (24" x 60')

OUTPOST[®] TPO

Single-Ply Membrane

For use with this roofing system: **SINGLE-PLY**

This rugged, thermoplastic polyolefin membrane (TPO) provides phenomenal defense from the environment. Its exclusive TPO design has been modified with a Kevlar[®]-reinforced fastening edge, non-moisture-wicking scrim material, and DuPont[®] Elvaloy[®] technology for exceptional strength, energy-efficiency, and ease of application for contractors. OUTPOST is a superb and cost-efficient choice for new commercial roofing construction and also as a commercial reroofing solution.

- #58161 OUTPOST Full Roll (78" x 100')
- #58163 OUTPOST Half Roll (39" x 100')
- #58165 OUTPOST Unsupported (24" x 60')

SpunFlex[™] I & SpunFlex[™] II

Premium Reinforcement Fabric

This 100% knit polyester fabric is embedded into Rapid Roof[®] HV, Rapid Roof III[®], and Benchmark[®] base coats to provide exceptional tensile and tear strength. This reinforcing fabric substantially increases the strength and durability of the roofing system. The use of SpunFlex I or SpunFlex II fabric in a specified roof system adds to the overall life expectancy of the roof and results in increased resistance to splitting and rupturing.

SpunFlex[™] I

- #56326 SpunFlex[™] I (4" x 300')
- #57825 SpunFlex[™] I (38" x 300')
- #54684 SpunFlex[™] I (76" x 300')

SpunFlex[™] II

- #56334 SpunFlex[™] II (2.5" x 300')
- #56342 SpunFlex[™] II (5" x 300')
- #54650 SpunFlex[™] II (38" x 300')
- #54692 SpunFlex[™] II (76" x 300')

SpunFlex[™] Butyl Tape

Premium Reinforcement Tape

A self-adhesive, peel-and-stick material that combines the strength and elasticity of SpunFlex with the built-in qualities of butyl adhesive. Butyl Tape can be used instead of base coat and fabric on metal roof seams. This can be advantageous when inclement weather is threatening the application. Butyl Tape allows for immediate application of the top coat, saving time and money.

- #55178 SpunFlex[™] Butyl Tape (3" x 50')
- #55186 SpunFlex[™] Butyl Tape (6" x 50')

Visit the Conklin Roofing Systems website at www.conklinroofingsystems.com for more detailed information on stocked and custom order single-ply membrane accessories or refer to the current Roofing Systems monthly pricing guide.

FLEXION[®] XL is certainly our single-ply membrane of choice. The high concentration of Elvaloy[®] and modified compounds in the sheet make it very pliable and nice to work with compared to other PVC membranes on the market. We have installed thousands of squares of Conklin single-ply over the years with nothing but success and excellent results.

— BRIAN & JON B., OHIO

I like the versatility, strength, and waterproofing capabilities of the Membrane Coating System. The available 10-year warranty gives both my customers and I peace of mind. The high-quality SpunFlex[®] fabric used in this system is flexible and easy to work with. Due to coastal wind uplift and potential hurricanes, having a seamless commercial roofing system is a must here in south Florida!*

— CHRIS POROSKY, FLORIDA

FLEXION XL[®], OUTPOST[®], PUMA[®] XL, Benchmark[®], and Rapid Roof III[®] meet the requirements of reflectivity and emissivity for inclusion in the Cool Roof Rating Council (CRRC) program.

*Conklin Company Inc. offers limited warranties ranging from 10 to 30 years upon submittal and approval of warranty application by Conklin.

UTILITY COATINGS

Affinity™

Aliphatic Polyurethane Roof Coating

Affinity is a high-value aliphatic polyurethane roof coating that offers the toughness, elasticity, and long-term performance you expect from a Conklin coating with unsurpassed weather resistance, making it extremely durable for almost any job.

#58153 5 gallons

PRIMERS

Conklin Encase™

Metal Surface Primer

For use with this roofing system: **MR**

Even where rust has a foothold, special anti-corrosion agents in our superior primer act to inhibit further spread of the oxidation process. Required for the application of the MR System™ (and used in conjunction with Rust Off™), this protective barrier inhibits rust from forming on steel surfaces and dries in as little as 2-4 hours.

GRAY

#58154 5 gallons

#58156 55-gallon drum

Tack Coat™

Single-Ply Membrane Primer

For use with these roofing systems: **MEMBRANE COATING** **FABRIC**

When used in conjunction with WAC II™, Conklin's Tack Coat promotes adhesion between Rapid Roof III® and substrates such as EPDM, Hypalon, PVC, and TPO. It quickly and effectively prepares the membrane for application of the highly reflective, energy-saving finish coat.

#40101 5 gallons

#40113 55-gallon drum

Power wash and clean with Rust Off™.

Prime with Conklin Encase™ Metal Primer.

Reinforce existing seams with SpunFlex™ or Butyl Tape and base coat.

Prime Time™

Primer for Conklin Acrylic Roof Systems

For use with these roofing systems: **FABRIC** **FOAM**

This quality acrylic latex roof primer is designed to prepare rough, weathered, or irregular substrates for a Conklin coating. Prime Time can be considered "liquid insurance" for optimum performance of Conklin Roofing Systems.

It is designed for use on polyurethane foam, asphalt, BUR, and anywhere else a fire-rated material is required.

#06379 5 gallons

#06395 55-gallon drum

CLEANERS

WAC II™

Industrial-Strength Roof Cleaner

For use with this roofing system: **MEMBRANE COATING**

Formulated for proper cleaning of weathered-approved Single-Ply membranes, WAC II also powers away dirt on any substrate to prepare the surface for optimal adhesion of primer and top coat. Our unique formula provides a clean surface and leaves no residue.

#40121 5 gallons

#40125 55-gallon drum

Rust Off™

Rust and Oxide Remover

For use with this roofing system: **MR**

A concentrated metal roof treatment that etches metal, and removes rust and oxidation. This convenient gel formula mixes easily with water, making quick work of rust removal, restoring metal to a ready-to-coat surface before the application of Conklin Encase™ Metal Primer.

#02560 6 quarts/case

CAULKS & SEALANTS

Conklin's professional-grade caulking compounds and sealants partner perfectly with our exterior latex coating system, quality fabrics, and our family of roof coatings. They provide a pliable seal that can withstand the extreme pressures of building movement and weather, enhancing the exceptional waterproofing power of our coatings.

Advantages of Conklin Caulks and Sealants:

- Provide superior protection with high-solids formulas.
- Cure to a durable, long-lasting finish.
- Comply with federal specifications for government projects.

Kwik Kaulk

Acrylic Caulking Compound

Formulated with less water than the leading competitive caulk, Kwik Kaulk latex caulking compound resists shrinking. Our high tensile-strength formula is ideal for metal, wood, or concrete surfaces. It seals door and window frames, thresholds, and any areas where air and water leaks occur. Plus, it remains flexible, even at -20° F. It can be used with all latex paints and acrylic coatings. Available in white, gray, or dark bronze.

360-S

Urethane Sealant

This tough elastomeric urethane sealant provides outstanding adhesion and long-lasting protection on masonry, concrete, aluminum, wood, and glass surfaces. It resists cracking, water, and most harsh chemicals, and cures even in humid, wet, or rainy conditions. Once it is cured, it can be coated with Conklin coatings for the perfect finishing touch.

ROOFING INDUSTRY PARTNERS & SUPPLIERS

Conklin Roofing Systems is proud to associate with the following manufacturers and dealers to provide you with an even greater array of commercial roofing products, equipment, and services.

Please contact a member of the Conklin Roofing Systems team at (952) 496-4215 to discuss the products and services available to Conklin-affiliated contractors from these outstanding vendor partner companies:

The beginning of a product line, the birth of a company

In the 1920s, visionary chemist and engineer Harry Conklin set out to find practical solutions to everyday problems. Using his basement as a laboratory and his garage as a factory, he formulated cleaner petroleum conditioners and lubricant additives, and invented a fuel conditioner that significantly increased gas mileage. Conklin's fuel-saving conditioners, sold today, are no longer considered an option, rather a must for keeping more of your hard-earned dollars. Mr. Conklin also formulated one of the very first parasyntetic motor oils. Today's Convoy® products work so well, they lower fuel and oil consumption and help extend oil change intervals.

From farmers to truckers to your everyday driver, hard-working people from across the country have adopted Conklin's maintenance products to keep their vehicles and equipment running longer, improve their performance, and reduce their maintenance costs. If cars, trucks, and equipment are integral to your business, Conklin Vehicle Products will improve your bottom line.

VEHICLE PRODUCTS

PERFORMANCE. VALUE. LONGEVITY.

Conklin Vehicle Products serve these customers and more:

- Crop Producers
- Implement Dealers
- Fleet Operations
- Owner Operators
- Contractors
- Livestock Producers
- Construction Companies
- Marinas
- Specialty & Performance Automotive Retail Merchants
- Restoration, Performance & Motorsports Enthusiasts
- Repair & Service Centers
- Vehicle & Equipment Owners

GREASES

Rhino® #2 Parasyntetic Lithium Complex Grease with Moly

Ultimate parasyntetic grease

Use Rhino as a wheel-bearing grease and chassis lube for cars and trucks, plus industrial applications. Provides ultimate protection under severe conditions, like high speed or heavy load. Pumps easily in cold temperatures and resists breakdown in high temperatures. Rhino will last longer, reducing maintenance time and costs.

- #047480 10 - 14-oz tubes (case)
- #047423 35 lb
- #047431 120 lb
- #047449 400 lb

Retail customer was previously using the least expensive grease available. Decided to use Rhino and called back two weeks later to get more of that good grease as he was using less grease and not greasing as often.

- KENNETH M., PENNSYLVANIA

Rite-On® #2 Lithium Grease

Premium conventional grease

Lithium-based red grease is formulated for use in wheel bearings and U-joints. Provides excellent pumpability and high-pressure protection.

- #040881 10 - 14-oz tubes (case)
- #040832 120 lb

Pistol Grip Grease Gun

Durable pistol grip grease gun offers convenient, one-handed operation. Three-way loading: 14-ounce cartridge, bulk, or suction. Head cap port for adding air bleeder or bulk loader fitting. Develops up to 7,000 psi.

- #040402 1 grease gun

4-Power D Diesel Fuel System Cleaner

4-Power D is a powerful cleaner designed specifically for diesel fuel systems, maximizing engine efficiency and performance. Clean fuel system components will allow for more efficient fuel dispersion and complete combustion, yielding increased efficiency and reducing engine problems. Add 2 ounces of 4-Power D per 10 gallons of diesel fuel.

- Aggressively cleans fuel system
- Dissolves varnish, gum, and deposits
- Meets OEM detergency requirements
- Exceeds engine cleanliness tests including Cummins L-10 and Volkswagen XUD-9
- Disperses water
- Cleans up dirty injectors
- Eases cold weather starts and prevents fuel line freezing
- Protects against fuel system corrosion

Emergency de-icer: In extreme cold conditions, when water exists in the system, it may be necessary to use 4-Power D as a de-icer. 4-Power D should be used every 4,000 miles or four months after the initial treatment.

#057465 12 - 8-oz bottles (case)
#057477 12 quarts (case)

Diesel Plus Diesel Fuel Conditioner

Diesel Plus is a multipurpose fuel conditioner used in every tank that will solve year-round problems associated with diesel fuel and diesel fuel systems. With Diesel Plus' superior rating in the L-10 Detergency testing, it keeps fuel system components clean, keeping diesel engines running smoothly and at peak efficiency. Conklin's unique formula offers a summer and winter treatment rate, eliminating the need for multiple products to be purchased and stored throughout the year between needs.

- Improves fuel efficiency
- Improves fuel stability
- Lowers cold filter plugging point as much as 22° F
- Lowers gel point as much as 35° F
- Improves cetane number up to 4
- Keeps fuel system clean
- Extends the life of injectors and fuel pumps
- Improves lubricity of diesel fuel (see chart below)

#009415 12 - 16-oz/pint bottles (case)
#009423 4 gallons (case)
#009431 5 gallons
#009449 55-gallon drum

Diesel Plus Sizes	Summer Treatment Rate	Winter Treatment Rate
1 pint	150 gallons	75 gallons
1 gallon	1,200 gallons	600 gallons
5 gallons	6,000 gallons	3,000 gallons
55 gallons	66,000 gallons	33,000 gallons

The photos to the left show how Diesel Plus improves the cold flow properties of diesel fuel. As diesel fuel gets colder, the paraffin waxes begin to form and clump together (far left). Once these waxes stop the flow of diesel fuel through the filter, you have reached the Cold Filter Plugging Point (CFPP). The cold flow improver additives in Diesel Plus do not allow these waxes to clump together (left) until much lower temperatures, which keeps the fuel flowing through the filter and you on the road! At the winter treatment rate, Diesel Plus can lower the CFPP of diesel fuel as much as 22° F.

4-Power G Gasoline Fuel System Cleaner

4-Power G is a powerful cleaner designed specifically for gasoline fuel systems to maximize engine efficiency and performance. Clean fuel system components will allow for more efficient fuel dispersion and complete combustion, improving driver satisfaction and reducing engine problems. 4-Power G offers exceptional control and cleanup of fuel injectors and intake deposits, while also controlling combustion chamber deposits where gasoline and ethanol-containing gasolines are in use. Add 1 ounce of 4-Power G per 1 gallon of gasoline.

- Aggressively cleans entire fuel system
 - Fuel injector, fuel line, and carburetor cleanup
 - Excellent cleanup of injectors in direct injection gasoline engines
 - Combustion chamber, valve, and port deposit cleanup
- By cleaning combustion chamber deposits, reduces knocking and pinging
- Dissolves varnish, gum, and deposits
- Protects against corrosion
- Disperses moisture
- Eases cold weather starts

4-Power G should be used every 4,000 miles or four months, while Conklin's Fuel Mate Plus® should be used in every tank.

#057625 12 - 16-oz/pints (case)

Fouled Injector

Before 4-Power G

Dirty Valve

Before 4-Power G

After 4-Power G

Fuel Mate Plus Gasoline Conditioner

Fuel Mate Plus is a gasoline fuel conditioner used in every tank to provide daily protection - keeping your fuel system components clean and minimizing harmful deposits that decrease engine performance, fuel economy, and driver satisfaction. Fuel Mate Plus' antioxidants also help prevent fuel varnishing between usage and in off-season storage of vehicles, motorcycles, snowmobiles, watercraft, and small engine equipment. Per www.toptiergas.com, "Six of the world's top automakers, BMW, General Motors, Honda, Toyota, Volkswagen, and Audi, recognize that the current EPA minimum detergent requirements do not go far enough to ensure optimal engine performance." This further stresses the importance of the additional detergency found in Conklin's Fuel Mate Plus.

- Improves fuel efficiency
- Keeps fuel system clean
- Minimizes intake valve deposits
- Reduces exhaust emissions
- Improves gasoline stability
- Inhibits fuel system rust and corrosion

#006025 6 - 16-oz/pints (case)

1 gallon to 1,280 gallons

Run smoother, longer with Convoy

Conklin's uniquely formulated parasynthetic oil, Convoy, begins with higher-quality base oils. These include conventional oil, highly refined synthetic oil, and a laboratory-designed and manufactured PAO (Poly Alpha Olefin), a pure synthetic oil. These oils are combined with our additive package, which includes the most up-to-date and technologically advanced detergents to keep today's engines running cleaner and longer. Convoy oils are then fortified with the best friction-reducing additives available, including Molybdenum, which is missing from most oils. All of these factors work together to create the finest parasynthetic oils on the market and make extended drain intervals a reality.

Convoy 0W-20, 5W-20, and 5W-30

Meets and exceeds the newest API SP and ILSAC GF-6A service specifications for passenger vehicles

Use Convoy for the ultimate gasoline engine protection. Excellent for use in car, truck, and small, four-stroke gasoline engines, such as those found in lawn mowers and other equipment.

- With oil analysis, Convoy motor oils can greatly extend your oil change intervals
- Increases fuel efficiency
- Keeps engines clean

CONVOY 0W-20

#041569 12 - 32-oz/quart bottles (case)

CONVOY 5W-20

#040055 12 - 32-oz/quart bottles (case)

#040063 5 gallons (in two 2.5-gallon containers)

CONVOY 5W-30

#035071 12 - 32-oz/quart bottles (case)

#035030 5 gallons (in two 2.5-gallon containers)

Convoy 20W-50

High-performance synthetic racing motor oil

Offers superior protection by including Molybdenum, the best friction-reducing conditioning additive available, as well as the correct balance of zinc, phosphorus, and sulfur to prevent premature part failure. Use in engines that burn gasoline or alcohol fuels on the street and at the track.

- Reduces friction - increases horsepower
- Lowers operating temperatures
- Reduces effects of fuel dilution
- Extends oil drain intervals
- Exceeds API service SL/SJ

#038059 12 - 32-oz/quart bottles (case)

#038067 5 gallons (in two 2.5-gallon containers)

Call for availability

Convoy SAE 30 SM

Superior friction reduction

Use in heavy-duty, two- and four-stroke diesel engines and gasoline engines requiring SAE 30 motor oil.

- Formulated to exceed API SM

#046458 12 - 32-oz/quart bottles (case)

#046474 5 gallons (in two 2.5-gallon containers)

Protect your investment, improve fuel economy, and extend oil drain intervals

The advanced Convoy® formulas on this page are specifically formulated for your heavy-duty diesel engine. Convoy 10W-30 CK-4, 15W-40 CK-4, and 15W-40 CI-4 Plus are formulated to provide optimum protection, efficiency, and value for all heavy-duty diesel engines - including newer engines equipped with EGR, DPF, and DEF systems. Whether you're driving over-the-road, around town, or on the farm - you can count on the improved performance, cost savings, and longevity you'll get with Convoy motor oil.

Convoy 10W-30 CK-4, 15W-40 CK-4, and 15W-40 CI-4 Plus

Heavy-duty parasynthetic motor oil

Convoy 15W-40 CI-4 Plus provides protection for 2006 and older engines where the API service category CI-4 Plus or previous API specifications CI-4, CH-4 are recommended. Convoy 10W-30 CK-4 and 15W-40 CK-4 provide protection where API service categories CJ-4 and CK-4 engine oils are recommended for model year 2007 and newer diesel engines. Convoy 10W-30 CK-4 and 15W-40 CK-4 is backwards compatible and exceeds the requirements for previous API service categories CJ-4, CI-4 Plus, CI-4 and CH-4. The enhanced synthetic and PAO synthetic base stocks provide superior all-temperature properties, while the conventional base stocks gives Convoy its parasynthetic name and provides seal protection for the engine's entire drain interval.

- Superior friction reduction - improved efficiency
- Long oil life for extended drain intervals (with oil analysis)
- Superior thermal and oxidation stability
- Protection against wear and corrosion
- Reduced sludge and varnish formation
- Excellent soot control and acid neutralization

CONVOY 10W-30 CK-4

#058250 12 - 32-oz/quart bottles (case)

#058253 5 gallons (in two 2.5-gallon containers)

#058256 55-gallon drum

#058259 220-gallon mini-bulk

#034095 220-gallon mini-bulk

We use Conklin's vehicle products, and yes, you can get better mileage with them—and sometimes it's big numbers. But the real value is how long we run these trucks without having to do major repairs. Between our work trucks and our personal vehicles, nothing has an easy life, and we go years without having to touch anything.

- MICK G., OKLAHOMA

OIL TREATMENTS

Head Start[®] Synthetic Two-Cycle Oil

Helps two-cycle engines run cleaner with reduced smoke
Developed to meet the specific needs of pre-mixed and oil-injected two-cycle engines. Superior blend extends plug life, eliminates exhaust valve sticking, and improves equipment performance. Mix ratios can be found on the product labels.

- Meets TC, TC-W, TC-W2, and TC-W3

#040683 12 - 32-oz/quart bottles (case)

TKO[®] Engine Oil Treatment Advanced Performance

Boosts motor oil performance
Recommended for use with any conventional and most synthetic, semi-synthetic, and parasyntetic motor oils. Treatment enhances oil film strength for better lubricity, reduced sludge, and reduced varnish buildup. Add 1 pint of TKO per 5 quarts of engine oil. For systems holding more than 10 quarts, use 1 pint of TKO per 6 quarts of engine oil.

#001438 12 - 16-oz/pint bottles (case)

#001461 4 gallons (case)

#001479 5 gallons

OIL ANALYSIS KIT

Oil Analysis Kit

Key to extending drain intervals
Regular oil analysis will protect your vehicle, and provide pertinent information about the oil and engine condition for family vehicles, trucks, and farm equipment.

- #078604 Prepaid oil sample bottle
- #078617 Oil analysis pump - tubing required
- #039164 Oil sample plastic tubing (per foot)

FULL SYNTHETIC GEAR LUBRICANTS

Gold Guard Plus[®] 75W-90

Advanced additive package provides longer life
Gold Guard Plus is a full synthetic, extreme-pressure gear lubricant formulated to exceed the demands of light and heavy-duty usage. Gold Guard Plus and Top Spec protect gears from a variety of surface stressors, including abrasion, corrosion, fatigue, and adhesive wear, while offering superior seal protection and compatibility.

- Minimizes NVH (Noise-Vibration-Harshness)
- Provides superior copper corrosion protection
- Offers strong shear stability
- Improves efficiency

#038000 12 - 32-oz/quart bottles (case)

#038018 5 gallons (in two 2.5-gallon containers)

#038034 55-gallon drum

Top Spec[®] 80W-140

Advanced additive package provides longer life
Top Spec is a full synthetic, extreme-pressure gear lubricant formulated to exceed the demands of light and heavy-duty usage. Top Spec protects gears from a variety of surface stressors, including abrasion, corrosion, fatigue, and adhesive wear, while offering superior seal protection and compatibility.

- Minimizes NVH (Noise-Vibration-Harshness)
- Provides superior copper corrosion protection
- Offers strong shear stability
- Improves efficiency

#047368 12 - 32-oz/quart bottles (case)

#047373 5 gallons (in two 2.5-gallon containers)

#047390 55-gallon drum

Dike[®] Temporary Radiator Stop Leak

Quickly stops radiator, heater core, and hose leaks
Advanced formula seeks out and seals internal leaks, preventing antifreeze and water from seeping into the engine. Compatible with all standard and permanent radiator coolants in cars, trucks, and water-cooled equipment. Add 4 ounces of Dike per 1 gallon of coolant system capacity.

#001339 12 - 16-oz/pint bottles (case)

#001362 4 gallons (case)

Safe[®] Radiator Conditioner

Extends radiator and water pump life
Safe protects gasoline and diesel cooling systems from rust and corrosion. Prevents causes of engine overheating, including lime and scale buildup and coolant foaming. Compatible with all vehicle cooling systems and coolants. Add 2 ounces of Safe per 1 gallon of coolant system capacity every six months.

#002337 12 - 16-oz/pint bottles (case)

#002360 4 gallons (case)

We were traveling in our motor home when the radiator sprang a leak. Water was gushing out faster than I could pour it in. With just adding 1 pint of Dike, the leak stopped and we continued traveling without any problems.

- DIANNA W., ARKANSAS

ATF XTRA MS™
Full Synthetic Transmission Fluid

Exceptional convenience and quality

ATF XTRA MS is a premium, multi-spec automatic transmission fluid that makes it easy to select one fluid that meets multiple specifications. Its unique formulation contains synthetic base oil, premium PAO (Poly Alpha Olefin) synthetic oil, and a new, technologically advanced additive package. This combination gives it unparalleled anti-shudder and wear protection as proven in extensive testing. ATF XTRA MS also increases torque capacity and offers excellent oxidation, sludge, and deposit control – extending the life of clutches, valves, seals, and pumps.

- Improves efficiency
- Ensures smooth shifting and power transfer
- Lowers operating temperatures
- High shear stability due to its quality formulation

- #057433 12 - 32-oz/quart bottles (case)
- #057442 5 gallons (in two 2.5-gallon containers)
- #057455 55-gallon drum

Trans Last®
ATF Conditioner

Easy and effective way to improve the performance of automatic transmissions

This fully formulated automatic transmission fluid conditioner can be added to new or in-use automatic transmission fluid. Add 1 pint for standard-sized automatic transmissions. For large-capacity systems, use 1 pint per 8 quarts of transmission fluid. Ideal for use in:

- Passenger cars, light trucks, and heavy-duty use including SUVs and 4x4s
- Large applications including box trucks, RVs, and busses
- Towing applications
- High-performance vehicles or older vehicles
- Vehicles with or likely to have extended lives

- #005613 6 - 16-oz/pint bottles (case)

Battalion®
Parasynthetic Hydraulic Transmission Fluid

Universal fluid for tractor hydraulic systems

Our premier hydraulic transmission fluid's formula extends drain intervals for less maintenance and downtime. Warms up quickly in cold temperatures. Provides excellent wear protection and reduces foaming. Keeps your hydraulic system lasting longer by extending seal and hose life and reducing fluid temperatures.

- #047571 5 gallons (in two 2.5-gallon containers)
- #047597 55-gallon drum
- #047600 220-gallon mini-bulk

At log loading sites, before Battalion they could only run until noon or so before the log chipping equipment got too hot. With Battalion, they can run full shifts all day because the equipment is running cooler.

We did not have to build landing/parking pads in the mountains for logging equipment because Conklin's Battalion is more environmentally friendly.

- RALPH T., PENNSYLVANIA

Super Fluid®
Hydraulic Transmission Fluid

Conventional universal fluid for tractor hydraulic systems

A conventional universal fluid that can be used in any tractor. Use with Enduro® for the best protection in a conventional fluid.

- #041475 5 gallons (in two 2.5-gallon containers)
- #041491 55-gallon drum

Enduro®
Hydraulic Fluid Conditioner

Improves conventional hydraulic fluid performance

A concentrated conditioner that improves the performance of hydraulic fluids. Enduro conditions leaky seals and extends hose life. Use 1 ounce per 2 gallons of hydraulic fluid.

- #003772 6 - 32-oz/quart bottles (case)

MANUAL TRANSMISSION FLUID

Extended-drain, heavy-duty manual transmission fluid - keeps your transmission shifting properly

Specifically formulated as a long-drain, severe service manual transmission fluid capable of extending drain intervals to 500,000 miles. Full PAO synthetic formula offers the best in shear stability, volatility, and all-temperature performance and is designed for the extreme conditions your transmission experiences over the entire oil drain interval.

- Provides outstanding cold temperature performance
- Provides excellent wear protection
- Inhibits oxidation and resists the effects of heat

- #041589 5 gallons (in two 2.5-gallon containers)
- #041593 55-gallon drum

The transmission in my semi is running 20-25° F cooler since switching to Gold Guard Plus SAE 50. The rear differential is also running cooler and the seals are lasting longer since converting to Top Spec 80W-140.

- HAROLD H., PENNSYLVANIA

AEROSOLS

Luboil[®] Multipurpose Lubricant

Handles thousands of jobs – from sticky chains and locks, to squeaky hinges and more

Multipurpose formula provides optimum lubrication for all indoor and outdoor applications. Luboil cleans and displaces moisture from metal surfaces, forming long-lasting lubrication without leaving behind greasy dirt-attracting residue.

- #002410 12-12 oz cans (case)
- #002477 5 gallons
- #078801 Spray bottle
- #078961 Trigger sprayer replacement

Luboil is one of my family's go-to, products. It's perfect for all areas, both in and outside of our home. From the garage doors to the kids' swing set to the hinges throughout our house, Luboil quickly replaced other products out on the market that couldn't stand up to our household's needs.

- ANGIE B., MISSOURI

Power Mate[™] Engine Degreaser

Degreases more than just engines

Powerful, non-corrosive, environmentally friendly formula is safe to use on wires, hoses, and belts.

- #051250 12 - 12-oz aerosol cans (case)

4-Power[®] Starter Fluid

Premium starter fluid formula with added lubrication

Delivers enhanced starting strength, promoting quick and smooth starts in gasoline and diesel engines* in all kinds of weather. For use in two- and four-stroke gasoline and diesel engines including cars, trucks, lawn mowers, weed eaters, chain saws, snowmobiles, marine engines, tractors, and motorcycles.

- Added lubrication to reduce wear during startup
- Performs in the coldest conditions, down to -40° F
- For use in all four seasons to promote extended battery life and reduced wear on starters

- #057709 6 - 11.2-oz cans (case)

**Not for use in diesel engines with glow plugs*

Rust Bomb[®] Super Penetrating Oil

Loosens rusty fasteners and parts

Penetrates quickly, breaking down rust and corrosion buildup on nuts and bolts. Just a few sprays help loosen the toughest rust in the tightest places. Ideal for lawn and garden tools, boats, docks, or any equipment frequently subjected to moist or wet conditions.

- #001214 12 - 12-oz cans (case)

AEROSOL CLEANERS

Brake N' Parts Cleaner

Non-chlorinated professional formula in a handy size

Quickly removes dirt, grease, brake dust, brake fluid, oils, and other contaminants from brake parts. Cleans and degreases CV joints, linings, cylinders, drums, clutches, springs, disk brakes, and other brake parts.

- Cleans and dries fast, leaving no residue
- Fortified with non-chlorinated solvents

- #057715 12 - 17.5-oz aerosol cans (case)

Carb N' Choke Cleaner

Professional formula in a handy size

Quickly penetrates and dissolves dirt, gum, and varnish deposits from the carburetor, throttle body, PCV hoses and valves, and choke and carburetor linkages, while freeing sticky valves and linkages. Restores efficiency, reduces gasoline usage, and improves performance and drivability. Safe for oxygen sensors and catalytic converters.

- Quickly dissolves gum and varnish deposits
- Leaves no residue

- #057727 12 - 15.5-oz aerosol cans (case)

APPEARANCE

(Rain-Activated Vision Enhancement)

RAVE[®] Windshield Treatment

Improves visibility by repelling moisture

RAVE coats glass surfaces with a clear film that repels and disperses moisture. Prevents bug and tree sap residue from adhering to windshields and windows, and eliminates streaks caused by wipers.

- #039131 6 - 8-oz bottles (case)

I realized how well RAVE repels water when I applied it to my windshield, drove in a rain storm, and noticed my wipers were moving half as fast as those on the cars around me. RAVE also repels dust and bugs so I don't have to scrub the windshield hard to get it clean.

- MARCUS Z., MISSOURI

KEEPING THE AMERICAN DREAM ALIVE FOR OVER 50 YEARS

Build a brighter future for your family, business, and country. With the Conklin line of hard-working products that are made in America, we're keeping the American Dream alive. As part of a free-market system, Conklin is doing its part in truly keeping this enterprise free for future generations.

Conklin buys American, manufactures in America, and is the catalyst for tens of thousands of American businesses. If you want to be part of teaching the next generation the lessons and rewards of independence, self-reliance, and self-determination, let our American Dream be part of your own.
