2024-2025
Pro Ag I Training Program

Knowledge is Power

Pro Ag is key to taking your operation to the next level.

"Pro Ag is an important tool every farmer will benefit from!
This training will empower you to make the best management decisions for your
operation for years to come."

— Kip Cullers – World-Record Soybean Producer, Missouri

Pro Ag Training Program Instructed by Agriculture Industry Experts

Ag industry experts from throughout the country, including Conklin Ag Panel members, Certified Crop Advisors, and Conklin staff, along with AgroVantage Training Coordinator and host Brandon J. Keithley, will help producers understand soil science and basic microbiology and chemistry in order to take their farming operations to the next level. Pro Ag Training curriculum will share key insights on Conklin's soil and tissue testing systems, advanced nitrogen knowledge, biostimulants and seed treatments, Conklin's AgroVantage System products and technologies, and much more. To register for a Pro Ag Training, visit www.Conklin.com under the Trainings and Events link and click on one of the many scheduled programs.

At Pro Ag Training, you'll learn how to:

- Take the guesswork out of diagnosing your soil's nutrient requirements

- Utilize a complete soil-testing program from an independent national lab

- Decrease your nitrogen costs by up to 20%

- Learn about the efficiencies of row-placed fertilizer

- Understand the benefits of foliar feeding for your crops

CONKLIN® **AgroVantage** SYSTEM
