

Specification Sheet

Fuel Mate Plus[®]

Gasoline Fuel Conditioner

Benefits

- Keeps carburetors and injectors clean
- Reduces exhaust emissions
- Inhibits fuel system rust and corrosion
- Helps extend engine life
- Minimizes intake valve deposits
- Will not harm catalytic converters

Description

Fuel Mate Plus gasoline conditioner keeps fuel systems clean to efficiently burn today's fuels. Cleaner combustion leads to smoother operation and longer maintenance free engine life. Fuel Mate Plus cleans existing deposits and prevents new deposits from forming. It also helps prevent fuel varnishing in off-season storage of vehicles, motorcycles, snowmobiles, and watercraft. Fuel Mate Plus restores and maintains top fuel system performance.

Conklin Products and Fuel Mate Plus improved the mileage on my Ford Explorer.

My 2003 Ford Explorer sport truck has 134,000 miles on it and was getting 12 mpg in the city and 17 mpg on the highway. After adding Conklin's Fuel Mate to the tank for the second time with a fresh oil change, my truck's mileage jumped to 16 mpg city and 20 mpg highway. Now, even though my truck needs an oil change, it's still getting 16 mpg city and 20 mpg highway. - Glenn Bork, Maple Park, IL

New injector pintle

Injector pintle - a fuel system conditioner has not been used

Per toptiergas.com, "Since the minimum additive performance standards were first established by EPA in 1995, most gasoline marketers have actually reduced the concentration level of detergent additive in their gasoline by up to 50%. As a result, the ability of a vehicle to maintain stringent Tier 2 emission standards has been hampered, leading to engine deposits which can have a big impact on in-use emissions and driver satisfaction."

"Six of the world's top automakers, BMW, General Motors, Honda, Toyota, Volkswagen and Audi recognize that the current EPA minimum detergent requirements do not go far enough to ensure optimal engine performance."

Applications

Fuel Mate Plus is intended for use in all gasoline engines.

Directions

Recommended usage rate is one ounce of Fuel Mate Plus to ten gallons of gasoline.
For best results add Fuel Mate Plus before filling tank with gasoline.

Part Numbers

#6025	1 Pint, 6 Each
#6064	1 Gallon, 4 Each
#6098	55-Gallon Drum
