

Amplify-D®

Seed Emergence Aid Fortified With Micronutrients Application Guide

Directions:

Apply Amplify-D® to seed in a mixing pail, in the bag or in the planter box. Mix powder and seed well to ensure a thorough coverage on the seed. Use of a rotating drum (such as a cement mixer) provides very effective application. In order to maximize Amplify-D's benefits, be sure that each seed has been uniformly coated (treated) with Amplify-D. Untreated seed will not produce the benefits attributed to seed treated with Amplify-D.

Suggested rates:

Corn	.2 oz.*/50 lbs. seed
Cotton	.2 oz.*/50 lbs. seed
Grain sorghum	.2 oz.*/50 lbs. seed
Small grains	.2 oz.*/50 lbs. seed
Small seeded grasses	3 to 4 oz.*/50 lbs. seed
Alfalfa	3 to 4 oz.*/50 lbs. seed

Application of Amplify-D on crop groups not listed in this crop/suggested rates of application guide should be considered on a trial basis only because no supportive data is available.

*2 ounces = 1 level scoop

Notes:

- The above rates may require adjustment to accommodate various seed sizes. Smaller-sized seed requires more product to provide sufficient coverage, while larger-sized seed requires less. To determine the optimum rate for the seed size used, begin by adding ½ ounce less than the rate suggested above, thoroughly mix and then check for seed coverage. If all seed has a bluish tint, the application rate is sufficient. If coverage is not complete, increase the rate by ½ ounce increments until all seed has been treated. **Do not over-apply this product.**
- Amplify-D is formulated to stick to the seed. If excess powder is applied or mixing is not thorough, it can stick to other things such as seed tubes, monitor sensors, etc.
- Amplify-D is formulated with talc as a component and supplies equivalent to 0.5 ounces of talc per 50 pounds of seed. Planters requiring larger amounts of talc or graphite will need additional amounts of planter box lubricant.
- Amplify-D has no insecticidal or fungicidal properties, but it can be applied to previously pesticide treated seed.
- Amplify-D will work with all planter designs – plate, finger and air. If you have any questions, please call Customer Service at (800) 888-8838 or visit the Agriculture/Lawn Care Division Web page before working with Amplify-D.

Safety:

Refer to the product label for information on precautionary statements and first aid.

Limited Guarantee:

Conklin Company, Inc. guarantees that this product conforms to the chemical description on the label, and is designed and suitable for the specific applications stated.
