

Classic Cleaners

Spring Dew® Multipurpose Dish Soap Specification Sheet

Tough on grease, but gentle on hands, Spring Dew cuts through the dirtiest jobs and takes the elbow work out of cleaning. This biodegradable, neutral pH formula is excellent for cleaning vinyl floors, walls, and counter tops. Spring Dew is safe for hand-washable fabrics and gentle enough to use as liquid hand soap. Use dispense bottle #040942.

Directions for Use

Manual dish washing: Add 1/2 ounce to the sink while filling with hot water. Don't let the low suds fool you—the power is in the water!

No-wax or vinyl floors: Use 1/2 ounce per gallon of hot water. Wet mop. No rinsing necessary. Recommended for daily floor maintenance.

Light cleaning on hard surfaces: Use 1 ounce per gallon of hot water. Sponge area and rinse.

Moderate soil on hard surfaces: Use 1 1/2 ounces per gallon of hot water. Sponge area and rinse.

Heavy soil on hard surfaces: Use 2 ounces per gallon of hot water. Sponge area and rinse.

Delicate washable fabrics: Use 1 ounce per gallon of water or cold water.
