

360-S[®]

Urethane Sealant

- 1000% elongation providing flexibility
 - Superior adhesion
 - Resists cracking
 - Interior or exterior
 - Proven performance
-

Demonstration of 360-S Urethane Sealant

- Purpose:** To demonstrate the elongation characteristics of the caulk.
- Materials needed:** Tube of 360-S
Greased surface such as glass, porcelain, formica or dense surface
- 1 week prior to demonstration:**
1. Gun the 360-S onto greased surface in the form of a 6" to 8" bead or rope.
 2. Allow to fully cure for a minimum of one week.
- For the demonstration:** Allow 2 to 5 minutes
1. Introduce 360-S and its benefits.
 2. Hold one end and have another person grab the other end and stretch slowly. Will stretch three to five times original length.
- Note:** Make sure the samples are air-free. If not, they may break during the demonstration!
