# Saturall 85<sup>®</sup>

## High Concentration Nonionic Wetting Agent

**DESCRIPTION**

Saturall 85 wetting agent is a highly concentrated nonionic surfactant that meets or exceeds most post-emergent spray application requirements. Saturall 85 improves the effectiveness of ag chemicals and foliar nutrient sprays by providing quicker wetting, greater saturation and more uniform spray coverage.

**PERFORMANCE CHARACTERISTICS**

- Improves effectiveness of ag chemicals and foliar sprays
- Provides more uniform spray coverage
- Decreases pesticide run off from plant surfaces
- Increases ag chemical absorption by plants
- Helps maximize return on pesticide investment
- Assists in suspension of wettable powders and flowables

**PRODUCT CHARACTERISTICS**

- Nonionic
- Highly concentrated
- Meets or exceeds the concentration requirement for most post-emergent spray applications
- Low application rates
- Blend of seven active ingredients

**DIRECTIONS FOR USE**

Shake well before using. Add the proper amount of Saturall 85 to the spray tank when approximately ½ full of water and mix thoroughly prior to adding the pesticide or foliar nutrient. Always consult the pesticide label and test for compatibility before large scale mixing.

**SPECIFICATIONS**

**Part number**

30056	Single 2½ gallon
30023	5-gallon/twin pack
30031	55-gallon drum – special order only
30064	Bulk (1,100 gallon minimum) – special order only

**Guaranteed Analysis**

Principle Fuctioning Agents	86.25%
Inert Ingredients	13.75%

**Appearance**

Slightly viscous and translucent liquid

**Odor**

Slight alcohol

**pH**

7.5

**Specific gravity**

1.04

**Weight/U.S. gallon**

8.65 pounds

**Packaging**

5-gallon/twin pack – 2½ gallon plastic container (2 per case)  
 55-gallon plastic drum

**Storage/handling**

Keep from freezing
