

“Conklin Building Products have allowed us to build valuable relationships with our customers — they don’t want to use anyone else because we pay attention to details and take care of their assets as our own. This is something, when taught right, will propel you to the top in your business.”

– Bill F., Oklahoma

Conklin pioneered elastomeric roof coatings over 35 years ago.

Ongoing research and development has kept us industry leaders. Now with over 2 billion square feet applied, our systems have set the standard for the coatings industry.

Our diverse systems:

- Provide maximum energy savings and true sustainability
- Are lightweight and provide long-term durability
- Help many of our contractors achieve lower labor costs and less overhead while earning up to 50% gross profit.
- Our reputation for quality attracts building and roofing contractors to add Conklin Roofing Systems to their business or to become independent Conklin Roofing Contractors.

Benefits of being a Wholesale Customer

- Purchase factory direct at Wholesale Price
- Receive credit to attend Conklin Building Products Training
- Get technical support from trained technicians and leaders in the field
- Earn volume discounts
- Purchase products from any/all Conklin product lines
