

Kip Cullers' Nutrient Compass Foliar Fertilizer[®]

Reach greater yields and improved profits with Kip Cullers' Nutrient Compass Foliar Fertilizer

Considered a worldwide authority on soybeans, Kip Cullers has earned multiple world records in soybean production, National Corn Growers Association national yield contest wins and world records in vegetable production. Kip has partnered with Conklin Company to bring American farmers the Kip Cullers' Nutrient Compass Foliar Fertilizer product, which can be easily incorporated into current management and pesticide applications.

A proprietary blend of NPK fertilizer, micronutrients and sucrose, Kip Cullers' Nutrient Compass Foliar Fertilizer is designed to stimulate plants at critical growth stages to take up more nutrients, push plants to achieve greater yields and increase farmers' profit potential. Kip Cullers' Nutrient Compass Foliar Fertilizer is intended to be used in conjunction with the foliar AgroVantage System, not to replace any components of the foliar AgroVantage System products.

Benefits of Kip Cullers' Nutrient Compass Foliar Fertilizer:

- Increases leaf size leading to more photosynthesis
- Promotes greater root mass leading to increased nutrient uptake
- Increases yield and test weight

Product Characteristics:

- 30 years of consistent research and field-proven results
- Non-corrosive to equipment
- Effective at low application rates

Performance Characteristics:

- Low burn potential
- Compatible with most pesticides
- Enhances yield and quality
- Low volatility

Applications of the Kip Cullers' Nutrient Compass Foliar Fertilizer result in larger leaves that capture more sunlight, resulting in greater photosynthesis and plants achieving higher production levels.

Kip Cullers' Nutrient Compass Foliar Fertilizer®

Research-Tested

The Conklin Company and its Independent Distributors have tested the performance of Kip Cullers' Nutrient Compass Foliar Fertilizer on corn, soybeans, dry beans, cotton, alfalfa, small grains and other crops for more than three years in the United States. Independent trials and company-sponsored regional and national test plots have shown consistent increased yield results.

Quality Performance

The premium raw materials in the Kip Cullers' Nutrient Compass Foliar Fertilizer create a unique, one-of-a-kind product that provides consistent results when used in combination with another foliar fertilizer or with pesticide applications. The special combination of highly available nutrients encourages the plants to take full advantage of your total soil and/or foliar fertility programs without adding additional trips over your fields. Kip Cullers' Nutrient Compass Foliar Fertilizer has a synergistic effect of enhancing your soil and foliar fertility program and increasing nutrient uptake. When correcting low or deficient nutrients as indicated on a tissue test, make certain to follow the AgroVantage recommendations and include the Kip Cullers' Nutrient Compass Foliar Fertilizer to this application. Always review chemical labels and conduct a jar compatibility test before large-scale mixing.

"The ease and simplicity of applying the Kip Cullers' Nutrient Compass Foliar Fertilizer, not to mention my return on investment, makes this one of the go-to products on our farm. The first year I used Kip's product, I noticed tremendous results right away. The Kip Cullers' Nutrient Compass Foliar Fertilizer applied at V3-V5 showed an 11-bushel response."
