“We had a foal that was not eating well, so I gave her Fastrack Equine Gel Ultra and in 2 hours, she was up and eating just fine.”
- Andy M., OH

Fastrack[®] Equine Gel Ultra

Administer gel by placing the tip of the syringe between the gums and cheek of the equine daily as needed.

	Maintenance	Challenge
Foals	5 mL	10 mL at birth
Mature Horses	5 mL	10 mL

Maintenance dosing is for times when the animal is not under stress but could benefit from maintaining a healthy microbiome.

Challenge dosing is for irregular situations that can occur causing the animal to undergo stress.

Minimum Guaranteed Analysis per 1 mL

Crude protein: 10%; 10,000 international units (IU) vitamin A; 25 IU vitamin E; total microbial count: 1.65 billion colony-forming units (CFUs) (Enterococcus faecium, Lactobacillus acidophilus, and Bacillus subtilis); 25 million CFUs yeast cells (Saccharomyces cerevisiae).

Ingredients

Vegetable oil, dried egg product, hydrolyzed yeast, dl-alpha tocopheryl acetate (source of vitamin E activity), dried Enterococcus faecium fermentation product, sucrose, lecithin, silicon dioxide, vitamin A acetate, dried chicory root, active dry yeast (Saccharomyces cerevisiae), dried Lactobacillus acidophilus fermentation product, and dried Bacillus subtilis fermentation product.
