**Feast<sup>®</sup>**  
**Micro Master Complexed Boron 10.0%**

**DESCRIPTION**

Feast boron solution is used as a supplement in complete fertility programs for specified crops.

**PERFORMANCE CHARACTERISTICS**

- Concentrated formula
- Effective at low application rates
- Can be soil or foliar applied

**PRODUCT CHARACTERISTICS**

- Readily available to plants
- Use in combination with liquid or dry fertilizers
- Compatible with most pesticides and other micro/secondary nutrients

**DIRECTIONS FOR USE**

Add the proper amount of Feast boron solution to the spray tank when it is approximately 1/3 full of water. Fill with water and add other chemicals, if any. (Always test for chemical compatibility prior to large-scale mixing.) **Do not apply in direct contact with seed.**

**SPECIFICATIONS**

---

**Part number**

38810	Single 2½ gallon
37143	5-gallon/twin pack
37135	30-gallon drum – special order only
37130	250-gallon mini-bulk – special order only

**Guaranteed analysis:**

Boron (B) derived from Boric Acid      10.0%

**Weight/U.S. gallon**

11.2 pounds

**Appearance**

Clear amber/yellow liquid

**pH**

7.7–7.9

**Freezing point**

0 to 5° F

**Storage**

Keep from freezing
