

Diesel Plus[®] Diesel Fuel Conditioner

Keeps you on the road 365 days a year!

Diesel Plus Diesel Fuel Conditioner is a multi-purpose fuel additive that solves year-round problems associated with diesel fuel systems. The perfected detergents in Diesel Plus clean and maintain fuel system components, so they run smoothly and at peak efficiency. The Ultra-Low Sulfur Diesel (ULSD) mandated in 2006 has lubricity and stability issues. Diesel Plus contains soy to provide much-needed lubrication for the longevity of fuel system components.* It also includes antioxidants to improve the stability and increase the storage/useful life of treated fuel.

For quick, cold weather starts and improved combustion, use Diesel Plus at the winter treatment rate. It can lower the cold filter plugging point (CFPP) by up to 22° F. In addition, Diesel Plus' moisture-scavenging properties help remove moisture and prevent bacteria growth in the fuel.

Using Diesel Plus Diesel Fuel Conditioner also:

- Improves efficiency
- Contains de-icers
- Extends the life of injectors and fuel pumps
- Lowers gel point as much as 35° F
- Lowers CFPP as much as 22° F
- Stabilizes fuel
- Cleans the entire fuel system
- Disperses water
- Improves Cetane number by as much as 4

Convenient sizes for diesel pickups and over-the-road trucks

Diesel Plus Diesel Fuel Conditioner

| | | | |
|--------------|---------|---------------------|---------|
| 12 Pints/cs | #009415 | 5 Gallons/twin pack | #009431 |
| 4 Gallons/cs | #009423 | 55 Gallons | #009449 |

*These components rely on the lubricity of the diesel fuel as they do not have any other source for lubrication.
