

Fortify Your Liquid Starter and Sidedress Mixes

If your soil test recommends sulfur application, Conklin offers Feast Side-Kick, the highest-analysis K plus S liquid fertilizer available.

Use Feast Side-Kick to fortify other liquid plant foods, including starter and foliar applications.

This neutral to basic, chloride-free, clear liquid fertilizer solution contains 25 percent potash (K20) and 17 percent sulfur (S).

Benefits of Feast Side Kick 0-0-25 w17S

- High-quality, readily available nutrients
- Excellent compatibility with most other liquid fertilizers
- Requires no mixing
- Remains in solution, even at low temperatures
- Easy to store, handle, and use
- Chloride-free, excellent for use with chloride-sensitive crops
- Clear, 100 percent water-soluble liquid solution

Compatibility

Side-Kick may be successfully blended with other fertilizers, according to specific recommendations. It is compatible with other Feast fertilizer formulations, and with conventional urea and ammonium polyphosphate solutions, in any ratio. Follow all label, specification sheet, and soil test recommendations for use, including suitability and guidelines for mixing with other liquid fertilizer products.

Feast[®] Side-Kick[™]

Methods of Application

Following specific use recommendations, Side-Kick may be soil-applied, foliar-applied, or applied as fertigation via drip, sprinkler, or flood irrigation.

Highest K and S Analysis Available

Each gallon of Feast Side-Kick contains 3 pounds of potash and 2.1 pounds of sulfur.

Application Rates

Deep-banded at planting

1 - 4 Gallons/Acre

Band-applied at planting with starter

2 - 4 Quarts/Acre

Foliar (follow crop recommendations)

2 Quarts/Acre

Side-Kick 0-0-25 w17S

#038690 5 gallons (in two 2½-gallon containers)
