

Feast[®] Profit Master[™] Foliar Fertilizers

CONKLIN[®] AgroVantage[™]
SYSTEM

Break the Yield Barrier with the Efficiency of Foliar Feeding

Foliar feeding is designed as a top-end management tool to target plants at growth stages when photosynthesis, root growth, and nutrient absorption need an extra boost. Foliar fertilizers stimulate more vigorous seed production and maximize crop production. A successful foliar application requires products with a very low salt index, high solubility, low-biuret, and high purity. Feast fertilizers exceed all these qualifications, making our foliar feeding program highly effective to increase both quality and yield.

Benefits of Feast Foliar Fertilizers:

- Boosts photosynthesis at essential growth stages
- Enhances growth and vigor of plants
- Non-corrosive to equipment

Quality Performance

The premium raw materials in Feast are blended in an exclusive hot mix process that produces a homogenized, clear liquid fertilizer that is stable at temperature extremes, non-corrosive, low in salt and impurities, near neutral in pH, and highly recoverable to the plant. Feast foliar fertilizers are available in popular formulas including: 9-18-9, 3-18-18, and Feast XL. Fortify your foliar fertilizers with Side-Kick.

Product Characteristics:

- Over 30 years of consistent research and field-proven results
- Non-corrosive to equipment
- Effective at low application rates

Performance Characteristics:

- Low-burn potential
- Compatible with most pesticides
- Enhances yield and quality
- Low volatility

Feast[®] Profit Master[™] Foliar Fertilizers

Research Tested

The Conklin Company has tested the performance of Feast liquid fertilizer on corn, wheat, soybeans, alfalfa, milo, cotton, and other crops for over 30 years. Independent trials and company-sponsored regional and national test plots have shown Feast to consistently outperform competitive fertilizer programs.

9-18-9

- #007161 55-gallon drum
- #007190 250-gallon mini-bulk
- #007112 Bulk

3-18-18

- #007278 5 gallons (in 2½-gallon containers)
- #007260 55-gallon drum
- #007300 250-gallon mini-bulk
- #007211 Bulk

Feast XL 26-0-0 w0.5B

Specially formulated for foliar feeding with Triazone[®]

- #054593 5 gallons (in 2½-gallon containers)
- #054601 55-gallon drum
- #054590 250-gallon mini-bulk
- #08459 Bulk

Side-Kick 0-0-25 w17S

Fortify your liquid starter foliar and sidedress mixes

- #038690 5 gallons (in two 2½-gallon containers)
- #038711 55-gallon drum
- #038750 220-gallon mini-bulk
- #038717 Bulk

"Using Conklin's Side-Kick with Feast 9-18-9 produces a more balanced nutrient package that really boosts our yields. We had a 240-acre field average of 338 BPA, while our 3,400 acres of corn averaged 296 BPA."
