Complete™

Liquid Ammonium Sulfate Drift Retardant Blend

DESCRIPTION

Complete is a highly active, spray grade ammonium sulfate solution, and also provides effective management of chemical drift and spray deposition. Ammonium sulfate has been proven to improve the performance of certain crop protection chemicals, especially herbicides such as glyphosate. Each quart supplies 0.85 lbs of AMS.

PERFORMANCE CHARACTERISTICS

- Conditions water for improved pesticide performance
- Promotes herbicide uptake (such as glyphosate)
- Increases surface tension of agricultural solutions to form larger, more uniform droplets
- Reduces drift to nontarget areas
- Increases percentage of material to target plants
- Improves pesticide efficiency and effectiveness

PRODUCT CHARACTERISTICS

- Highly concentrated formulation
- More economical – less chemical cost
- Easy to mix liquid formulation eliminates application problems
- Safe to handle and use

DIRECTIONS FOR USE

The addition of Complete to a tank mix should always follow the review of herbicide labels and their procedures, rates and application requirements.

SPECIFICATIONS

Part number

39354	Single 2½ gallon
39362	5-gallon twin pack
39370	55-gallon drum
39380	250-gallon mini bulk
39391	bulk - special order only

Guaranteed analysis:

Ammonium sulfate/drift retardant blend	100%
---	------

Appearance

Colorless liquid

pH

6.3

Specific gravity

1.21

Weight/U.S. gallon

10.0

Freezing point

Approximately <0°F

Packaging

5-gallon twin pack, 55-gallon drum, 250-gallon mini-bulk

Storage/handling

Keep from freezing
