

Keep'n it Cool

A clean, efficient cooling system is vital to your vehicle, and Conklin has what you need to keep a cooling system running clean and at peak efficiency!

Dike® Temporary Radiator Stop Leak

Quickly stops radiator, heater core, and hose leaks

Cooling system leaks can lead to serious problems down the road including overheating and engine failure. Keep Dike in your vehicle emergency kit for on-the-spot repairs. Dike's advanced formula seeks out and seals internal leaks, preventing antifreeze and water from seeping into the engine. Put it in your radiator as a preventative measure – especially if you're driving in severe conditions.

- Compatible with all standard and permanent radiator coolants
- Helps gaskets seal better and stops seepage
- Will not block small passages in the coolant system

Dike® Radiator Stop Leak

12 Pints/cs #001339
 4 Gallons/cs #001362

Safe® Radiator Conditioner

Extends radiator and water pump life

After flushing the cooling system, help keep it clean! Safe contains conditioning agents that prevent seals from deteriorating and keep your entire coolant system performing efficiently and problem-free. Safe's advanced technology also provides additional electrolytic corrosion protection in diesel and gasoline engines.

- Protects from rust and corrosion
- Keeps cooling system clean
- Prevents foaming, lime, and scale buildup
- Compatible with all cooling systems and coolants
- Racetrack proven

Safe® Radiator Conditioner

12 Pints/cs #002337
