

Gold Guard Plus[®] 75W-90 Synthetic Gear Lubricant

Performance beyond your expectations

Gold Guard Plus is a full synthetic, extreme-pressure gear lubricant formulated to exceed the demands of light and heavy-duty usage. Gold Guard Plus protects gears from a variety of surface stressors including abrasion, corrosion, fatigue, and adhesive wear. Even with sustained high temperatures, Gold Guard Plus' superior thermal stability prevents sludge and deposits from forming – keeping critical gear components clean. And its new synthetic formulation has low temperature properties that ensure proper lubrication in startup conditions.

Gold Guard Plus provides superior lubrication by combining synthetic base oils with premium Poly Alpha Olefin (PAO) synthetic oil. This unique formulation results in:

- Exceptional compatibility with commonly used seal materials
- Superior copper corrosion protection
- Strong foam suppression
- Smoother clutch engagement without chatter
- Superior seal protection
- Minimizes NVH (Noise – Vibration – Harshness) associated with momentary cyclic torque loss
- The necessary torque/power requirements needed by modern vehicles
- Strong shear stability
- Improved efficiency

Advanced Additive Package provides longer life

Gold Guard Plus is recommended for manual transmissions, vehicle differentials (conventional and limited slip), transfer cases, and industrial gears requiring a GL-4 or GL-5 gear lubricant. It is also recommended for marine outboard and stern drive lower units. Gold Guard Plus is compatible with all gear lubricants.

Meets or exceeds the following requirements:

API GL-4, GI-5, and MT-1; ML-PRF-2105E; SAE J-2360; Mack GO-J

Gold Guard Plus[®] 75W-90 Full Synthetic Gear Oil Lubricant

12 qts/cs	#38000
5 Gallons/twin pack	#38018
55 Gallons	#38034
