

METAL ROOFING SYSTEM

Application

- Lightweight
- Cost effective
- Energy efficient – highly reflective, reducing cooling costs
- Prevents leaks

Demonstration of Metal Roofing System Application

Purpose: To demonstrate the application stages of the MR System.

Materials needed: MR System Sample *#09715

For the demonstration: Allow 2 to 5 minutes

1. Introduce the MR System and its benefits. Include testimonials.
2. Demonstrate the various stages of the MR System Application (surface preparation, caulking, treating seams with Spunflex or Butyl Tape, coating seams and putting the final reflective top coat on the roof).

* Available at the Conklin Distribution Centers
