

Rust-Off[®]

Rust and Oxide Remover

- Etches metal
 - Pacifies Rust
 - Removes Oxide
-

Demonstration of Rust-Off

- Purpose: To demonstrate the power and ease of Rust-Off for removing rust and oxidation.
- Materials needed: Rust-Off
Tarnished penny or oxidized copper sheeting
Towel or cloth
Warm water
Before and after photos
- For the demonstration: Allow 2 to 5 minutes
1. Introduce Rust-Off, its benefits and a testimonial, plus show before and after photos.
 2. Apply a small amount of Rust-Off to half of the tarnished penny or oxidized copper sheeting.
 3. Allow the Rust-Off to work 15 to 20 seconds.
 4. Wipe the penny with a cloth.
 5. Rinse the penny or copper with water and pass it among your guests.
